Houseplants are one of the most enduring members of any household. They provide a much needed addition of color, fresh oxygen, and character to any room. They can add a boost to your mood, improve the quality of air in your home, and help relax you after a long day at work. But every houseplant needs a different amount of care, including water, food, and sunlight. Some plants, if they get too much light or too little water, will simply die without warning. To combat this, you need a complete guide to keeping your houseplants alive and happy. In this guide, you will learn all of the basics of houseplant care, starting with a thorough explanation and glossary of terms that are used to describe different plants and how they grow. You will learn what makes a houseplant different from other plants and how much water, sunlight, and food each plant needs to truly stay alive. You will read specific sections about many of the common houseplants, sections that contain detailed information about the needs of each specific plant. Top houseplant experts and gardeners have contributed their insight through various interviews to further the knowledge you can gain from this book and to help you overcome particularly finicky houseplants. You will learn to find the right plant location in your home, avoid meddling pests and pets, and make sure unknown contagions do not interfere with the growth of your plants. This book, for anyone who has ever wanted to add a little green to their home, is the perfect path to understanding and keeping your favorite houseplants healthy and happy.

How Not to Kill Your Houseplant is your guide to every stage of plant parenting for beginners, from identifying exactly what's in the pot, to helping it flourish and grow. If you wonder what the crispy bits at the leaf edges are, why the stalks are looking spindly, or why your plant looks brown even though you've watered it, How Not to Kill Your Houseplant will explain - and fix - your horticultural woes. Understand how much light, water, heat, and humidity your plant needs with quick tips on what your houseplant does and doesn't like. Learn to spot the danger signs and how to rescue an unhealthy plant, and follow easy advice to pick the top plants for your bathroom, cold rooms, desk, and windowsill to create your own indoor oasis.
