Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide—400,000 copies sold—now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it’s even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She’s also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Laura Kasinof studied Arabic in college and moved to Yemen a few years later—after a friend at a late-night party in Washington, DC, recommended the country as a good place to work as a freelance journalist. When she first moved to the capital city of Sanaa in 2009, she was the only American reporter based in the country. She quickly fell in love with Yemen’s people and culture, and even found herself the star of a local TV soap opera. When antigovernment protests broke out in Yemen in 2011, part of the revolts sweeping the Arab world at the time, she contacted the New York Times to see if she could cover the rapidly unfolding events for the newspaper. Laura never planned to be a war correspondent, but found herself in the middle of brutal government attacks on peaceful protesters. As foreign reporters were rounded up and shipped out of the country, Laura managed to elude the authorities but found herself increasingly isolated—and even more determined to report on what she saw. With a new foreword by the author about what has happened in Yemen since the book’s initial publication, Don’t Be Afraid of the Bullets is a fascinating and important debut by a talented young journalist.
