This article applies to the Acura TL (2004-2008). Premature lower control arm bushing wear is a common problem in the Acura TL, and it's one that has plagued many owners. These bushings tend to rip and tear on cars with as little as 30-40,000 miles, which is unacceptable considering the fact that most cars see these bushings last the life of the car.

[Acura TL Control Arm | CarParts.com](#)

The Acura TL control arms use three major parts, as do most vehicles. These three parts are bundled as genuine Acura control arm kits, but you may be able to find genuine Acura TL parts for control arms sold separately. These are the parts used and their individual functions for the Acura. Bushings: All of the parts used in the Acuras control arms need to be secure, as they are perched on the underbody of the vehicle.
