365 More Simple Science Experiments with Everyday ...

Science experiments are fun for every agespecially when there is a surprise in each one. 365 Simple Science Experiments with Everyday Materials includes clever and core concept building projects perfect for a year of hands-on learning. Get ready to make things fizz, bounce, ooze and surprise you, young scientist!

Presents a variety of activities, projects, and experiments that help to illustrate and explain many different scientific principles.

A year of science experiments designed to surprise you! Have more fun with 365 More Simple Science Experiments with Everyday Materials, a fully-illustrated handbook that is "perfect for formal instructional settings or entertaining curious minds with scientific fundamentals" (Booklist). Here's a valuable resource for a quick science fair project or an impromptu rainy-day activity with friends: 365 More Simple Science Experiments with Everyday Materials is written for kids ages 9 through 12, with DIY environmentally friendly ideas that teach concepts such as gravity, electricity, magnification, magnetism, oxidation, and so much more. Common materials like soap, paper, water, and common food items like lemons and potatoes are transformed into keys to the world of wonder that is science. Learn basic physics with a bottle and a coin; explore biochemistry and nutrition with cooking (and eating!); design a rocket; learn about time, timekeeping and develop new record-keeping skills ideal for the budding scientists and writers. Packed with more than 1,000 illustrations and step-by-step instructions, 365 More Simple Science Experiments with Everyday Materials brings core concepts into focus with a fun, family-friendly lens. You'll enjoy every day.

Do you know how to make your own explosive volcano? Or how rainbows are made? Explore the world of science and learn about Earth and the solar system through hundreds of experiments that will challenge and entertain you. With 365 Science Experiments, youll be amazed at how much you learn while having so much fun!

There is always time to conduct science experiments, because science never sleeps! 365 Weird & Wonderful Science Experiments gives you a full year of kid-friendly experiments to try alone or supervised. This fact- and fun-filled book of science includes hundreds of simple, kid-tested science experiments. All of which can be done with items from around the house, and require little to no supervision! Whether you're making your own slime, rockets, crystals, and hovercrafts or performing magic (science!) tricks and using science to become a secret agent, this book has something for every type of curious kid. Each experiment features safety precautions, materials needed, step-by-step instructions with illustrations, fun facts, and further explorations. With 365 Weird & Wonderful Science Experiments you will: Create a drinkable rainbow Make a bowling ball float Capture a cloud Build furniture out of newspapers Blow bouncing bubbles that don't burst Plus 360 other weird and wonderful experiments. Engaging, encouraging, and inspiring. 365 Weird & Wonderful Science Experiments is every budding scientist's go-to, hands-on guide for learning the fundamentals of science and exploring the fascinating world around them, just like a real scientist.

Presents over sixty simple experiments which provide information about such topics as heat, air, light, sound, and gravity.

Science has never been so easy--or so much fun! With The Everything Kids' Science Experiments Book, all you need to do is gather a few household items and you can recreate dozens of mind-blowing, kid-tested science experiments. High school science teacher Tom Robinson shows you how to expand your scientific horizons--from biology to chemistry to physics to outer space. You'll discover answers to questions like: Is it possible to blow up a balloon without actually blowing into it? What is inside coins? Can a magnet ever be "turned off"? Do toilets always flush in the same direction? Can a swimming pool be cleaned with just the breath of one person? You won't want to wait for a rainy day or your school's science fair to test these cool experiments for yourself!

Presents a variety of activities, projects, and experiments that help to illustrate and explain all sorts of scientific principles.

A variety of activities, projects, and experiments that help to illustrate and explain all sorts of scientific principles.
