In their first public event, John Lennon and Yoko Ono planted acorns for peace at St Michael's Cathedral, Coventry. The site they had originally intended to use in the grounds of the cathedral had to be moved after Canon Verney refused to allow the unmarried couple to bury anything in consecrated ground.

Originally published in 1970, "Grapefruit" remains one of the icons of a generation, with a mixture of poetic verse, drawings, mock questionnaires, and more. Line drawings.

This lyrical biography explores the life and art of Yoko Ono, from her childhood haiku to her avant-garde visual art and experimental music. An outcast throughout most of her life, and misunderstood by every group she was supposed to belong to, Yoko always followed her own unique vision to create art that was ahead of its

time and would later be celebrated. Her focus remained on being an artist, even when the rest of world saw her only as the wife of John Lennon. Yoko Ono's moving story will inspire any young adult who has ever felt like an outsider, or who is developing or questioning ideas about being an artist, to follow their dreams and find beauty in all that surrounds them. Praise for Yoko Ono: Collector of Skies STARRED REVIEW "Clean text space, delicate but legible font, and scads of photographic portraiture and art piece reproductions of excellent clarity contribute to an overall book design worthy of its subject." —Bulletin of the Center for Children's Books, starred review "A detailed portrait of a complex woman who for several reasons has a significant place in our cultural history. Even rabid fans of Lennon or the 1960s will find new information and angles in this searching study." —Kirkus Reviews "This

Intimate glimpses gathered from musicians who knew John, such as Pete Townshend, Sir Elton John, Billy Preston, and Joan Baez; friends and relatives such as producer David Geffen, publicist Elliot Mintz, and cousin Mike Cadwallader; and artists who followed him such as Bono, Alicia Keys, Steve Earle, Jello Biafra, and Carlos Santana. The Internet has led to revolutions across the world but a crackdown is now in full swing. As whole societies move online, mass surveillance programs are being deployed globally. Our civilization has reached a crossroads. In one direction lies a future promoting "privacy for the weak and transparency for the powerful"; in the other is an internet that transfers power over entire populations to an unaccountable complex of spy agencies and their trans-national corporate allies. Cypherpunks are activists who advocate the mass use of strong cryptography as a way protecting our basic freedoms against this onslaught. Julian Assange, the editor-
