Act Like a Leader, Think Like a Leader: Ibarra, Herminia ...

As I explain in my book, Act Like a Leader, Think Like a Leader, what Jacob is lacking is not thinking time but “outsight” – the fresh, external perspective we can get when we do new and different things – plunge ourselves into new projects and activities, interact with very different kinds of people, and experiment with new ways of getting things done – and then observe the results of our actions. Reflection wasn’t going to help him because his deep-seated way of thinking was ...

The principle holds that the only way to think like a leader is to first act: to plunge yourself into new projects and activities, interact with very different kinds of people, and experiment with unfamiliar ways of getting things done.

Act Like a Leader, Think Like a Leader | Herminia Ibarra

To become a successful leader, you have to ditch the conventional “think before doing” logic and instead start acting like a leader in order to start thinking like a leader. “I’m like the fire patrol,” says Jacob, a thirty-five-year-old production manager for a mid-sized European food manufacturer.

How to Act and Think Like a Leader | Herminia Ibarra

Successful leaders understand if you think small, you'll stay small, and that's the worst kind of failure. They don't let their fears dissuade them from thinking big. 7.

"Today's breakneck pace of change has an immense impact on leaders-and as a result, on the organizations they run. All too often, people remain stuck in outdated mindsets and modes of operating, even after others recognize the need for change. Leaders need to learn to pivot even when there are no obvious signals guiding their way. Leadership expert Herminia Ibarra (INSEAD) upends traditional, introspective advice and says act first-and then change your way of thinking. In this unconventional book, Ibarra, one of the world's foremost experts on leadership transitions, provides the first practical guide on how to change when you also need to lead. Defying standard leadership development guidance, which encourages deep self-reflection into strengths and weaknesses, this book shows that the most effective way to change is through action, not analysis, and by learning from experience, not introspection. In short, it will teach you to change from the outside in by first acting like a leader and then thinking like one. Based on Ibarra's flagship executive education program at INSEAD, this book is for new and seasoned leaders alike who need to understand the new rules for success in their own organization, and in the global business environment at large. It's the essential guidebook for anyone who wants to upgrade their role or be the leader their organization needs them to be"--

You aspire to lead with greater impact. The problem is you’re busy executing on today’s demands. You know you have to carve out time from your day job to build your leadership skills, but it’s easy to let immediate problems and old mind-sets get in the way. Herminia Ibarra—an expert on professional leadership and development and a renowned professor at INSEAD, a leading international business school—shows how managers and executives at all levels can step up to leadership by making small but crucial changes in their jobs, their networks, and themselves. In Act Like a Leader, Think Like a Leader, she offers advice to help you: • Redefine your job in order to make more strategic contributions • Diversify your network so that you connect to, and learn from, a bigger range of stakeholders • Become more playful with your self-concept, allowing your familiar—and possibly outdated—leadership style to evolve Ibarra turns the usual “think first and then act” philosophy on its head by arguing that doing these three things will help you learn through action and will increase what she calls your oversight—the valuable external perspective you gain from direct experiences and experimentation. As opposed to insight, oversight will then help change the way you think as a leader: about what kind of work is important; how you should invest your time; why and which relationships matter in informing and supporting your leadership; and, ultimately, who you want to become. Packed with self-assessments and practical advice to help define your most pressing leadership challenges, this book will help you devise a plan of action to become a better leader and move your career to the next level. It’s time to learn by doing.

How Successful Career Changers Turn Fantasy into Reality Whether as a daydream or a spoken desire, nearly all of us have entertained the notion of reinventing ourselves. Feeling unfulfilled, burned out, or just plain unhappy with what we’re doing, we long to make that leap into the unknown. But we also hold on, white-knuckled, to the years of time and effort we’ve invested in our current profession. In this powerful book, Herminia Ibarra presents a new model for career reinvention that flies in the face of everything we’ve learned from “career experts.” While common wisdom holds that we must first know what we want to do before we can act, Ibarra argues that this advice is backward. Knowing, she says, is the result of doing and experimenting. Career transition is not a straight path toward some predetermined identity, but a crooked journey along which we try on a host of “possible selves” we might become. Based on her in-depth research on professionals and managers in transition, Ibarra outlines an active process of career reinvention that leverages three ways of “working identity”: experimenting with new professional activities, interacting in new networks of people, and making sense of what is happening to us in light of emerging possibilities. Through engrossing stories—from a literature professor turned stockbroker to an investment banker turned novelist—Ibarra reveals a set of guidelines that all successful reinventions share. She explores specific ways that hopeful career changers of any background can: Explore possible selves Craft and execute “identity experiments” Create “small wins” that keep momentum going Survive the rocky period between career identities Connect with role models and mentors who can ease the transition Make time for reflection—without missing out on windows of opportunity Decide when to abandon the old path in order to follow the new Arrange new events into a coherent story of who we are becoming. A call to the dreamer in each of us, Working Identity explores the process for crafting a more fulfilling future. Where we end up may surprise us.

"Personal presence is difficult to define but easy to recognize. People with presence carry themselves in a way that turns heads. When they talk, people listen. When they ask, people answer. When they lead, people follow. Personal presence can help you get a date, a mate, a job, or a sale. It can help you lead a meeting, a movement, or an organization. Presence is not something you’re born with—anyone can learn these skills, habits, and traits. Award-winning speaker and consultant Dianna Booher shows how to master dozens of small and significant things that work together to convey presence. She details how body language, manners, and even your surroundings enhance credibility and build rapport. You’ll learn to use voice and language to demonstrate competence, deliver clear and memorable messages, and master emotions. You’ll learn to think strategically, organize ideas coherently, and convey to others genuine interest, integrity, respect, and reliability. Take her self-assessment to measure your progress. With Dianna Booher’s expert, entertaining advice, you can have the same kind of influence as the most successful CEOs, celebrities, and civic leaders. "

Driving Results Through Social Networks shows executives and managers how to obtain substantial performance and innovation impact by better leveraging these traditionally invisible assets. For the past decade, Rob Cross and Robert J. Thomas have worked closely with executives from over a hundred top-level companies and government agencies. In this groundbreaking book, they describe in-depth how these leaders are using network thinking to increase revenues, lower costs, and accelerate innovation.

"What makes a leader? Can you really learn to lead? You might think that leaders need to be born with the right skills or personality attributes. Perhaps you believe you don't have the right experience or that you need to hold an important job to be a leader. Maybe you believe you need permission to lead. As Harvard Business School professor and business executive Robert Steven Kaplan explains in this powerful new book, leadership is accessible to all of us today-and it starts with an ownership mind-set. You don't need an invitation to lead. Leadership is a dynamic way of thinking and acting that anyone can take on. For Kaplan, acting as a leader is a function of three key questions: 1. Do you work to figure out what you believe as if you were an owner? 2. Do you take action based on those beliefs? 3. Do you focus on adding value to others and take responsibility for the impact of your actions on others-both positive and negative? The book is full of stories taken from the author's own leadership experience as well as from his work helping various types of leaders and organizations. What's revealed is that leadership is not a role reserved for an elite few blessed with the right skills and key positions-it's about a focus on taking ownership and adding value to others. What's more, leadership is a lifelong journey of learning for which you must take responsibility. It's about learning to ask the right questions and learning to understand yourself. As in his earlier books, Kaplan asks probing questions, provides exercises, and suggests follow-up steps that will help you develop your skills, create new habits, and move you toward reaching your unique potential. What You Really Need to Lead is your key to unlocking the power of thinking and acting like an owner"--

Throughout her extraordinary career, Professor Rosabeth Moss Kanter has always pushed the boundaries through her high-level field research, and her breakthrough ideas with practical applications for a broad audience. One of the world's bestselling business thinkers, her work on leadership and change management has influenced the most enlightened and successful executives and entrepreneurs. Supercorp, based on a three-year worldwide research program, provides the answer to a question crucial to both business and society more broadly: as a company grows, how can it avoid becoming a lumbering, corrupt giant? Companies such as IBM, Procter & Gamble, Mexican-based Cemex and Japanese-based Omron provide the models that businesses small and large can use to stay on track, outstrip the competition, and attract and motivate the new generation of talent. And, Professor Kanter provides the evidence of the powerful synergy between the financial success shareholders want and social conscience - it is only these 'vanguard companies' that are big but human, efficient but innovative, global but local, that will succeed in the future.

The proven model that offers powerful and elegant strategies for leaders How Great Leaders Think: the Art of Reframing uses compelling, contemporary examples to show how more complex thinking is the key to better leadership. Leaders who understand what's going on around them see what they need to do to achieve the results they want. Bolman and Deal's influential four-frame model of leadership and organizations—developed in their bestselling book, Reframing Organizations: Artistry Choice and Leadership—offers leaders an accessible guide for understanding four major aspects of organizational life: structure, people, politics, and culture. Tapping into the complexity enables leaders to decode the messy world in which they live, see more options, tell better stories, and find strategies that are more effective. Case examples of leaders like Jeff Bezos at Amazon, Howard Schultz at Starbucks, Tony Hsieh at Zappos, Ursula Burns at Xerox, and the late Steve Jobs at Apple provide concrete lessons that readers can put to use in their own leadership. The book's lessons include: How to use structural tools to organize teams and organizations for better results How to build motivation and morale by aligning organizations and people How to map the terrain and build a power base to navigate the political dynamics in organizations How to develop a leadership story that shapes culture, provides direction, and inspires commitment to excellence

Internationally recognized leadership expert John C. Maxwell teaches readers how to shift their leadership to keep innovating, improving, and influencing others in today’s fast-paced world. Change is so rapid today that leaders must do much more than stay the course to be successful. If they aren’t nimble and ready to adapt, they won’t survive. The key is to learn how to leadshift. In Leadshift, John C. Maxwell helps leaders gain the ability and willingness to make leadership changes that will positively enhance their organizational and personal growth. He does this by sharing the eleven shifts he made over the course of his long and successful leadership career. Each shift changed his trajectory and set him up for new and exciting achievements, ultimately strengthening and sustaining his leadership abilities and making him the admired leadership expert he is today. Among those leadshifts are the Adaptive Shift from Plan A to Option A, the Production Shift from Ladder Climbing to Ladder Building, and the Influence Shift from Positional Authority to Moral Authority. Maxwell gives specific guidance to readers about how to make these shifts in their own lives. Each one requires them to change the way they think, act, and ultimately lead so they can be successful in a world that never remains the same.

"Lead Yourself First makes a compelling argument for the integral relationship between solitude and leadership." --The Wall Street Journal Throughout history, leaders have used solitude as a matter of course. Martin Luther King found moral courage while sitting alone at his kitchen table one night during the Montgomery bus boycott. Jane Goodall used her intuition in the jungles of central Africa while learning how to approach chimps. Solitude is a state of mind, a space where you can focus on your own thoughts without distraction, with a power to bring mind and soul together in clear-eyed conviction. But these days, handheld devices and other media leave us awash with the thoughts of others. We are losing solitude without even realizing it. To find solitude today, a leader must make a conscious effort. This book explains why the effort is worthwhile and how to make it. Through gripping historical accounts and firsthand interviews with a wide range of contemporary leaders, Raymond Kethledge (a federal court of appeals judge) and Michael Erwin (a West Pointer and three-tour combat veteran) show how solitude can enhance clarity, spur creativity, sustain emotional balance, and generate the moral courage necessary to overcome adversity and criticism. Anyone who leads anyone--including oneself--can benefit from solitude. With a foreword by Jim Collins (author of the bestseller Good to Great), Lead Yourself First is a rallying cry to reclaim solitude--and all the benefits, both practical and sublime, that come with it.
