Once a seasoned gamer, Max has cheated fate swapping his dying body for an immortal avatar in the world of sword and sorcery MMORPGs. He joins the ranks of a new race of people: perma players, forever stuck in the virtual castles and cities of AlterWorld. Now they have to obey the ever-changing rules of their new home while learning to live together in peace, love and justice.But freedom and immortality are a poisoned chalice. Some of Max's new friends crave power, others become traitors and spies. Soon the first screams of pain fill the virtual world as its freshly-minted slavedrivers and torturers indulge in the absence of law and order. Their crimes provide a constant flow of gold back to their real-world controllers: the power-happy governments plotting to take over AlterWorld's magic technologies and limitless resources.What would you do? Would you step aside and watch the magical world turn into the Earth's dark twin? Or are you strong enough to step in the virtual sharks' way?

The perma players' new reality gains depth and color. The virtual world has seen its first birth - and its first death. The invisible umbilical cord connecting AlterWorld to Earth grows thinner, and even the Fallen One cannot prevent the looming catastrophe. Could Max have ignored the Russian girl who'd just escaped slavery in a virtual China? Could he have turned a deaf ear to her pleas as the desperate fugitive clutched at straws on hearing her native tongue? All this triggers a full-blown confrontation, sending armies of thousands into battle in the heart of the Frontier, burning kilotons of mana, melting desert sands and hacking through impervious mithril armor. The two nations' furious war cries obscure the sky as the Gods shudder at humans' desperate cruelty.

The magic flames are raging. Blades are melting. Souls are reduced to ashes in the fury of battle. The grand finale of the war for the First Temple is upon us. The last trump cards have been played, the reserves are all exhausted, and even the gods have engaged in the plebsian fight. The universe is on the point of collapse. Broken are the chains that held the worlds together. The icy waters of the Baltic cool the scorching sands of the Frontier. The creatures of AlterWorld spill the first blood on the quiet streets of Earth's cities. What is Max to do? Become embittered and butcher his enemies? Seize the deserted castles and abandoned lands? Attempt to save the one who had given her life for him? Or try to win the jackpot by finding a way home, back to Earth?

The Russian cluster. The ground shakes as the enemy approaches. The angered gods frown as they look down from the sky. Intelligence agencies are locked in a brutal fight. Hundreds of thousands of sentient beings happily slaughter each other. This is no longer a game quest, nor a petty fight between clans over some land rich in resources. This is war! A war of civilizations, religions, and all the dimensions of the world. The earth weeps in pain. The astral beings turn away in horror. Burning castle towers collapse to the ground. Stones melt in the heat. The enemy is coming. Refugees flood the Valley. Alliance members are joining forces. Max is not just a clan leader anymore. He is the Chief, the head of the resistance. And you have no choice but to fight; you are the hope of the children and the thousands of innocents. They have entrusted you with their lives.

Attending the deathbed of a renowned mathematician, his second wife and adult children reflect on their personal demons, including the son's pretty wife, who has caught the attention of the mischievous god Zeus.
