Used in conjunction with the APICS CSCP Learning System, this study guide provides a proven approach to passing the Certified Supply Chain Professional (CSCP) exam on the first attempt. It explains over 50 calculations, 1,000 key terms and concepts, and includes more than 25 exercises and 400 practice exam questions.

The Certified Supply Chain Professional (CSCP) certification is essential for professionals involved in the areas of supplier and customer relations, international trade, the use of information technology to enable the supply chain, and physical logistics. Candidates must pass a 3-module exam in order to earn the CSCP designation. The modules are: APICS Supply Chain Management Fundamentals, Supply Chain Strategy, Design, and Compliance Implementation and Operations. Officially, CPIM focuses primarily on manufacturing and provides an in-depth view of materials management, master scheduling, production planning, forecasting, and quality improvement within an organization, while CSCP takes a broader view to encompass all steps throughout the supply chain. We create these self-practice test questions referencing the concepts and principles currently valid in the exam. Each question comes with an answer and a short explanation which aids you in seeking further study information. For purpose of exam readiness drilling, this product includes questions that have varying numbers of choices. Some have 2 while some have 5 or 6. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Think of these as challenges presented to you so to assess your comprehension of the subject matters. The goal is to reinforce learning, to validate successful transference of knowledge and to identify areas of weakness that require remediation. The questions are NOT designed to "simulate" actual exam questions. "realistic" or actual questions that are for cheating purpose are not available in any of our products.
