Helicopter pilots in Vietnam kidded one another about being nothing but glorified bus drivers. But these "rotor heads" saved thousands of American lives while performing what the Army classified as the most dangerous job it had to offer. One in eighteen did not return home. Tom A. Johnson flew the UH-1 "Iroquois" -- better known as the "Huey" -- in the 229th Assault Helicopter Battalion of the First Air Cavalry Division. From June 1967 through June 1968, he accumulated an astonishing 1,600 flying hours (1,150 combat and 450 noncombat). His battalion was one of the most highly decorated units in the Vietnam War and, as part of the famous First Air Cavalry Division, helped redefine modern warfare. With tremendous flying skill, Johnson survived rescue missions and key battles that included those for Hue and Khe Sanh and operations in the A Shau and Song Re valleys, while many of his comrades did not. His heartfelt and riveting memoir will strike a chord with any soldier who ever flew in the ubiquitous Huey and any reader with an interest in how the Vietnam War was really fought.

The Napoleonic Wars gripped Europe, and beyond, for over ten years at the beginning of the Nineteenth century. Hundreds of battles were fought between the armies of France (and its allies) and all those powers that wished to see Napoleon Bonaparte stopped in his tracks and an end to the French Empire. The battles and sieges of the Napoleonic Wars, which cost the lives of between 3 and 6 million men, made unprecedented use of large guns, and every participating army possessed a range of artillery. With the wars covering such a long period of time, and with so many armies involved, the subject of Napoleonic artillery is a complicated one, and no work has attempted to examine all the weapons involved in a single, detailed volume. Until now. The product of years of research, this book presents most of what is known about the artillery pieces of the Napoleonic Wars. Including numerous drawings, contemporary illustrations and modern photographs of surviving guns, it will be an invaluable addition to the library of historians, modellers, wargamers and re-enactors.

I shall shortly be eighty-eight. High time to be giving serious thought to the direction my life should be taking. In an upper-crust retirement home, Geoffrey Wythenshaw sits down to write his memoir. But he faces constant interruption from his fellow residents, their visiting relatives and the attending staff. Some of them seek his wisdom, others only distraction.

N.F. Simpson, whose work includes *One Way Pendulum*, led the twentieth century British Absurdist movement. His first play, *A Resounding Tinkle*, was one of the winners in the Observer play competition in 1957. The incessant ambush of non-sequiturs, as Kenneth Tynan described it, is a gloriously comic revelation of the absurdity of every day life. *A Resounding Tinkle* was revived with the sketch *Gladly Otherwise* at the Donmar Warehouse in July 2007.
