includes, questions on atomic number, atomic mass, mass number, isotopes, atomic history and the Bohr model. It is a two page test which should take the students about 30 - 45 minutes to complete. It is a comprehensive test on the atomic stru

Atomic Structure Test Worksheets & Teaching Resources | TpT

Dalton's atomic theory also explains the law of constant composition: if all the atoms of an element are alike in mass and if atoms unite in fixed numerical ratios, the percent composition of a compound must have a unique value without regards to the sample analyzed. The atomic theory led to the creation of the law of multiple proportions.
