Amid growing recognition that strong academic skills alone are not enough for young people to become successful adults, this comprehensive

Read Online Briggs Stratton Els 725 Engine

report offers wide-ranging evidence to show what young people need to develop from preschool to young adulthood to succeed in college and career, have healthy relationships, be engaged citizens, and make wise choices. It concludes that rich experiences combining action and

Read Online Briggs Stratton EIs 725 Engine

reflection help children develop a set of critical skills, attitudes, and behaviors. And it suggests that policies should aim to ensure that all children have consistent, supportive relationships and an abundance of these developmental experiences through activities inside and outside of

Read Online Briggs Stratton Els 725 Engine school.

Children are the foundation of the United States, and supporting them is a key component of building a successful future. However, millions of children face health inequities that compromise their development, well-

Read Online Briggs Stratton Els 725 Engine

being, and long-term outcomes, despite substantial scientific evidence about how those adversities contribute to poor health. Advancements in neurobiological and socio-behavioral science show that critical biological systems develop in the prenatal through early childhood periods, and

Read Online Briggs Stratton EIs 725 Engine

neurobiological development is extremely responsive to environmental influences during these stages. Consequently, social, economic, cultural, and environmental factors significantly affect a child's health ecosystem and ability to thrive throughout adulthood. Vibrant and
