" Broken Faith is a gripping, meticulously reported account of a cult leader's grip on a small southern community. It is also a prescient story of systemic abuse where the victims seek—and fail to find—justice from the very institutions that were meant to protect them."

Your broken faith and the Body of Christ The reason why the girl passed away rather than being healed is that the Body of Christ is fragmented and broken. This is why many are sick among us and some even sleep. While a church may have a common belief system the true unity that it takes to have God’s power manifest in and through us is missing.

An explosive investigation into the Word of Faith Fellowship, a secretive evangelical cult whose charismatic female leader is a master of manipulation In 1979, a fiery preacher named Jane Whaley attracted a small group of followers with a promise that she could turn their lives around. In the years since, Whaley's following has expanded to include thousands of congregants across three continents. In their eyes she's a prophet. And to disobey her means eternal damnation. The control Whaley exerts is absolute: she decides what her followers study, where they work, whom they can marry--even when they can have sex. Based on hundreds of interviews, secretly recorded conversations, and thousands of pages of documents, Pulitzer Prize--winner Mitch Weiss and Holbrook Mohr's Broken Faith is a terrifying portrait of life inside the Word of Faith Fellowship and the harrowing account of one family who escaped after two decades.

How many people do you know who say they believe in God . . . but you'd never know it from looking at their lives? Despite good intentions, their faith isn't life-changing or world-shaking; they may go to church on Sundays, but God doesn't seem to make much difference the other six days. Maybe this describes you, and you're starting to realize that the "before" of your life looks a lot like the "after." Is that really the best life that faith in Jesus has to offer? International evangelist and speaker Luis Palau has encountered people from all walks of life who believe in God but have never experienced real, life-defining transformation. In *Changed by Faith*, he offers a gritty, up-close look at the broken world around us, the true redemptive power of the Gospel—and what it means for your life today. Through dramatic personal stories and solid Scriptural perspective, Luis looks at the practical changes that come when you begin to follow the teachings of Jesus Christ and shows how God can take the ashes of your life and transform them into something beautiful.

New York Times-bestselling October Daye series • Hugo Award-winning author Seanan McGuire • "Top of my urban-paranormal series list!" —Felicia Day Includes a brand-new map and original bonus novella! Politics have never been October "Toby" Daye's strong suit. When she traveled to the Kingdom of Silences to prevent them from going to war with her home, the Kingdom of the Mists, she wasn't expecting to return with a cure for elf-shot and a whole new set of political headaches. Now the events she unwittingly set in motion could change the balance of modern Faerie forever, and she has been ordered to appear before a historic convocation of monarchs, hosted by Queen Windermere in the Mists and overseen by the High King and Queen themselves. Naturally, things have barely gotten underway when the first dead body shows up. As the only changeling in attendance, Toby is already the target of suspicion and hostility. Now she needs to find a killer before they can strike again—and with the doors locked to keep the guilty from escaping, no one is safe. As danger draws ever closer to her allies and the people she loves best, Toby will have to race against time to prevent the total political destabilization of the West Coast and to get the convocation back on track...and if she fails, the cure for elf-shot may be buried forever, along with the victims she was too slow to save. Because there are worse fates than sleeping for a hundred years.

Restore your faith in love and family with one Army wife's courageous story of how she helped her husband recuperate from losing both of his legs while serving in Afghanistan. Paige received the phone call that every military wife prays will never come. Her husband, Army Sergeant Josh Wetzell, stepped on an improvised explosive device while patrolling in Afghanistan. The blast resulted in the immediate loss of his legs. His survival was uncertain, and in the days to come, this traumatic incident began an unbelievable journey of faith for them as a couple. Paige's vulnerability as she struggles physically, emotionally, and spiritually, will remind you of the power of commitment and love in the face of adversity. You will discover the bravery and grit of a woman who stood behind the battle lines but faced a battle of her own to save her marriage and her family. As a military wife, Paige had to come to terms with the priorities of the military: God, Country, and then Family.

This book is a theological reflection on the broken state of faith within the Catholic Church in Ireland following more than two decades of revelations about institutional and child sexual abuse and the Church's now acknowledged failure to respond to the abuse in an appropriate way. The result has been broken lives, broken faith and a broken church.
While the book has a theological purpose, it employs a see-judge-act methodology in attempting to come to terms with a very complex problem. Following a broad introduction, the first section sets out to listen to the voices of the victims. The second section consists of an interdisciplinary academic analysis, with significant input from psychology and also from history and social studies. The final section of the book engages in theology, seeking to place us in a Kairos moment that might allow us to look beyond our broken faith. This, however, requires an analysis of the theological misunderstandings that led to the aberration of clericalism, the resulting abuse of power and the wider malaise within the Church. St Paul is suggested as a mentor, as we seek to restore trust and rebuild the Church in a radically new way. The book ultimately seeks a renewal of our broken faith, searching for trajectories towards healing and wholeness, truth and reconciliation.

Drawing on her personal experience and knowledge of religious history, Diana Butler Bass examines the contours of the uniquely American relationships between church and state, Christian identity and patriotism, citizenship and congregational life. *Broken We Kneel* attempts to answer the central question with which so many people are struggling: do Christians owe their deepest allegiance to God or country? In writing both impassioned and historically informed, Bass reflects on current events and political questions that have sharpened the tensions between serious faith and national imperatives. This book incorporates the author's own experience of faith, her vocation as a writer and teacher, and her roles as wife, mother, and churchgoer into a larger conversation with Christian practice and contemporary political issues. *Broken We Kneel* is a call to remember that the core of Christian identity is not always compatible with national political policies. This volume includes a new foreword and reflections on the sixteen years since the publication of the first edition. This second edition of *Broken We Kneel* includes a powerful new introduction by Rev. Robert W. Lee (author of *A Sin By Any Other Name*), and new reflections by Diana Butler Bass on the tensions of faith and citizenship, especially regarding race in a post-Charlottesville world. *Broken We Kneel* is both a lament and a plea for communities of faith to engage important issues. It would make a great group reading book during the upcoming election.

Cancer sucks, death sucks even more. But we humans don't have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it. The diagnosis of cancer, regardless of the disease's curability, is almost always nerve-racking, even for healthcare providers like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend's name and decides to see him. That brings back the memory of their past together, and she starts going through her old diary she had written some thirty years in the past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA (this takes place after her cancer diagnosis). The main character of the story was born with 'Manglik' cosmic influencer, meaning that the planet Mars "mangal Graha" was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet Mars was not in such position.) What happens next changes the lives of the main characters.

Emotional wounds aren't always apparent, and those that haunt Marika and Rhiannon are deep and apparent. When circumstances throw them together one summer, they reach out and find unexpected strength.
