The International General
Certificate of Secondary Education
is an English language based
examination similar to GCSE and is
recognized in the UK as being
equivalent to the GCSE for the
purposes of recognizing prior
attainment. It was developed by
University of Cambridge
International Examinations. The
examination boards Edexcel and
Oxford AQA also offer their own
versions of International GCSEs.

In this paper we demonstrate that finite linear combinations of compositions of a fixed, univariate function and a set of affine functionals can uniformly approximate any continuous function of n real variables with support in the unit hypercube; only mild conditions are imposed on the univariate function. Our results settle an open question about representability in the class of single hidden ...
