The citizen skyhawk Eco-Drive watch offers a multifunctional timepiece that uses a solar cell to convert light into electrical energy. The cell, embedded in the dial, drives the hour, minute and second hands, chronograph, alarm, timer and other functions. Fully charged, the Skyhawk Eco-Drive shifts into a power save mode to conserve energy in low-light or dark conditions.

Page 28 Eco-Drive (solar-powered) watch handling precautions **WARNING Use Only the Specified Battery** • Never use a battery other than the rechargeable cell specified for use in this watch. Although the watch structure is designed so that it will not operate when another type of battery is installed, if a conventional watch battery or other type of battery is installed in the watch and the watch is recharged, there is the risk of overcharging which may cause the battery to rupture.

3 years ago. Your new Eco-Drive timepiece is specially powered by proprietary ECO-DRIVE TECHNOLOGY, which converts any source of light (natural and artificial) into usable energy. The harnessed energy is then stored in a special power reserve to keep your timepiece charged and running properly. If you wear your new Citizen Eco-Drive timepiece on a regular basis, recharging will be virtually automatic as regular exposure to light will keep your power reserve unending.
