In 1956, Enzo Ferrari's son Alfredo died and, in remembrance, Enzo named the Formula 2 V6 engine that he was working on after his son, calling it Dino. From then on, all V6 and V8 Ferrari engines were known as Dinosaurs. There have been many such cars and engines bearing this honorable name. Dinosaurs have powered three World Champions, numerous sports-racing car victories, and even two mountain championships. Four series of road cars have been so successful with their Dino power that they form the bulk of car sales in modern times for Ferrari. DINO is a full historical analysis of all these outstanding cars the like of which has never been researched and published before. Here, at last, true credit can be given to the Ferrari V6 and V8 cars, the cars of the principality of Alfredo. The book contains heavily-detailed appendices, details on drivers and championships, and a wealth of road test material from the best accredited sources.

Here you ' ll get detailed insight into this race, the competition debut of 2119 GT, as well as the seven others in which the car took part in period, all supported by a superb collection of photographs.

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. The Age of Enlightenment profoundly enriched religious and philosophical understanding and continues to influence present-day thinking. Works collected here include masterpieces by David Hume, Immanuel Kant, and Jean-Jacques Rousseau, as well as religious sermons and moral debates on the issues of the day, such as the slave trade. The Age of Reason saw conflict between Protestantism and Catholicism transformed into one between faith and logic -- a debate that continues in the twenty-first century. ++++ The below data was compiled from various identification fields in the bibliographic record of this title.
