[...] it didn't matter, because one word, "sure" in the context of motorcycle ownership, gave Pete permission to buy one. All he had to do now was earn the money. [...] When Ms. Strickland answered the door she looked at the stoop and noticed that it had been shoveled. Since they were both holding shovels, the first thing she said in a rhetorical tone was "Did you guys do that? Thank you!" Before they could get a word out, she continued with "I guess you are here to shovel my drive! Or did you do that too and now you want your money?" Without missing a beat, Mel replied, "Yup! Twenty bucks!" In a scolding almost frantic tone she replied with, "Well I'm not paying. I have the lawn service under contract. Not very smart business boys. You can't just ask people to pay for a service they didn't request!" Pete just stood there in shock when Mel said, "OK, we'll put it back." She paused for a moment with a look of horror on her face until she realized Mel was joking and

started laughing. She said "I'm sorry boys, but I'm already committed." Mel replied, "That's OK, we understand." As they were walking toward the next house, they heard Ms. Strickland's door open and she started yelling, "Boys!?! Boys!?! Wait!" Mel and Pete exchanged glances wondering what now? "Come back! I changed my mind! You can shovel my drive!" Pete jokingly said to Mel, "It looks like we're both gonna make \$20 on this drive since our price just doubled!"

Break into that barn - you know you want to - there might be a vintage Harley inside. If you won't break in, Tom Cotter will; amazing motorcycles await. Driving down a country road, a flash of chrome catches your eye as you pass an old farmstead. Next time you roll by, you slow down and focus on a shed behind the house. Could that be? Good lord, it is! Hard on the brakes, quick reverse, and pull in the drive. Yep, it's a vintage Triumph Bonneville peering forlornly from beneath a tattered cover. You've just begun the journey that fuels the dreams of every motorcycle collector: the long-forgotten machine, rediscovered. The Harley in the Barn offers forty-plus tales of lost Nortons, hidden Hondas, dormant Indians, and busted BSAs, all squirreled away from prying eyes but found by lucky collectors just like you. Author Tom Cotter is not only a barn-find master, he's also master of discovering the collectors with the best stories and the most outlandish finds. In *The Harley in the Barn*, all those great stories are told. If you can't pass a padlocked garage without wondering if there's a great old bike stashed inside, this is your book. Hell, this is your life.

Harley-Davidsons. Jeff Zielinski, owner of NAMZ Custom Cycle Products and wiring harness and component designer, is the author of this revised Motorcycle Wiring book. In addition to a discussion of factory Harley-Davidson wiring harnesses, Jeff describes at length the various harness options available to a person building a custom bike. Is it better to build a harness from scratch, or install a ready-made harness kit? What's the easiest way to route all those wires through the top frame tube and the handle bars? These questions and many more are answered in this book. Inside you will find over 350 color photos and wiring illustrations spread across 144 pages. Everything from basic chopper wiring diagrams and schematics to complex factory schematics - as well as a complete, start-to-finish harness install sequence.
