Amazon.com: Encyclopedia of Things That Never Were ...

The Encyclopedia of Things That Never Were (EoTTNW for short) is one of the big books of creature reference. And by big I mean it'll be one of the tallest books on your shelf. It's not only about creatures either, but it was my introduction to a lot of the more famous and somewhat obscure monsters out there. Is it worth a gander?

This kid's educational book opens the world in new ways through: - Amazing insights into space and the universe - Interesting facts about Earth - A closer look at nature - Diving into the human body - The amazing world of science - Our world's history Knowledge Encyclopedia is part of a children's encyclopedia set forming the Knowledge Encyclopedia educational series. Complete this collection of books for kids to keep your little ones entertained while learning more about the world around them. This series includes Knowledge Encyclopedia Dinosaur!, History!, Space!, Ocean! and more.

Fantasy Encyclopedia is a superb guide to the creatures and people of folklore and fantasy. Meet the mischievous and sometimes helpful Little People, such as goblins and fairies, horrific monsters, from dragons to Dracula, and beautiful fantastical creatures, such as mermaids and unicorns. Discover how the magic of stories throughout the centuries have kept these creatures alive in traditions and cultures around the world, and how mystery and superstition still surround many of them. Detailed illustrations, contemporary and from renowned fantasy artists such as Arthur Rackham, bring these fantastic creatures to life.

A memoir in bite-size chunks from the author of the viral Modern Love column "You May Want to Marry My Husband." "[Rosenthal] shines her generous light of humanity on the seemingly humdrum moments of life and shows how delightfully precious they actually are." —The Chicago Sun-Times How do you conjure a life? Give the truest account of what you saw, felt, learned, loved, strived for? For Amy Krouse Rosenthal, the surprising answer came in the form of an encyclopedia. In *Encyclopedia of an Ordinary Life* she has ingeniously adapted this centuries-old format for conveying knowledge into a poignant, wise, often funny, fully realized memoir. Using mostly short entries organized from A to Z, many of which are cross-referenced, Rosenthal captures in wonderful and episodic detail the moments, observations, and emotions that comprise a contemporary life. Start anywhere—preferably at the beginning—and see how one young woman's alphabetized existence can open up and define the world in new and unexpected ways. An ordinary life, perhaps, but an extraordinary book.

A is for "Tink Aaron-Martin," "Aardvark," and "Amazing" in this wonderful alphabetical novel! Tink Aaron-Martin has been grounded AGAIN after an adventure with her best friend Freddie Blue Anderson. To make the time pass, she decides to write an encyclopedia of her life from "Aa" (a kind of lava--okay, she cribbed that from the real encyclopedia) to "Zoo" (she's never been to one, but her brothers belong there). As the alphabet unfolds, so does the story of Tink's summer: more adventures with Freddie Blue (and more experiences in being grounded); how her family was featured in a magazine about "Living with Autism," thanks to her older brother Seb--and what happened after Seb fell apart; her growing friendship, and

maybe more, with Kai, a skateboarder who made her swoon (sort of). And her own sense that maybe she belongs not under "H" for "Hideous," or "I" for "Invisible," but "O" for "Okay." Written entirely in Tink's hilarious encyclopedia entries, THE ENCYCLOPEDIA OF ME is both a witty trick and a reading treat for anyone who loves terrific middle-grade novels.

Over the past decade, James Jean has won critical acclaim for his art (including a record eight Eisner Awards in a row for his cover illustrations for the DC Comics series Fables), hosted celebrated gallery exhibitions around the globe, received numerous design awards, and developed a fan base of devoted collectors. Rebus showcases new work as well as important creative milestones including the eerie dreamscapes of his oil paintings, the elaborate installations and animations he created for Prada in 2008, his gorgeous illustration work, as well as never-before-published pages from his detailed sketchbooks. Page after page, this monumental book reveals new ideas and explorations from an artist whose voice, influence, and vision remain simply unparalleled.

From Jezebel.com, the popular website for women, comes a must-read encyclopedic guide to pop culture, feminism, fashion, sex, and much more. Within months of Jezebel's May 2007 appearance on the new media scene, fans of the blog began referring to themselves as "Jezzies" in comment threads and organizing reader meet-ups in cities all over the world. By 2008, the devotion of the self-appointed Jezzies reached such a fever pitch that the New York Times ran a feature story about them and parody blogs and copycat websites began popping up right and left. With contributions from the writers and creatives who give the site its distinctive tone and broad influence, The Book of Jezebel is an encyclopedia of everything important to the modern woman. Running the gamut from Abzug, Bella and Baby-sitters Club, The to Xena, Yogurt, and Zits, and filled with entertaining sidebars and arresting images, this is a must-read for the modern woman.
