by generating answers before we've even finished asking a question. These companies know who we are and what we want. The key to their magic is Big Data. Personalizing the consumer experience with the collection and analysis of consumer data is widely recognized as one of the biggest business opportunities of the 21st century. But there is a flip side to this that has largely been missed. What if we were able to use data about employees to personalize and customize their experience - to increase their engagement, help them learn faster on the job, and figure out which teams they should be on? In this book, Leerom and his colleagues outline the six principles they've used to decode work and unlock the

maximum potential of their talent, and share success stories from other organizations that have embraced this approach. The Decoded Company is an actionable blueprint for any company that wants the best from its people, and isn't afraid of radical approaches to get it. Leerom Segal is the president and CEO of Klick and has been named "Entrepreneur of the Year" by the Business Development Bank of Canada, won the "Young Entrepreneur of the Year" award from Ernst and Young, and was named to Profit Magazine's Hall of Fame as the youngest CEO ever to lead a nonprofit company. This volume contains papers presented at the 11th International Conference on Jet Cutting Technology, held at St. Andrews, Scotland, on 8-10 September 1992. Jetting techniques have been successfully applied for many years in the field of cleaning and descaling. Today, however, jet cutting is used in operations as diverse as removing cancerous growths from the human body, decommissioning sunsea installations and disabling explosive munitions. The diversity is reflected in the papers presented at the conference. The papers were divided into several main sections: jetting basics -- materials; jetting basics -- fluid mechanics; mining and quarrying; civil engineering; new developments; petrochem; cleaning

and surface treatment; and manufacturing. The high quality of papers presented at the conference has further reinforced its position as the premier event in the field. The volume will be of interest to researchers, developers and manufacturers of systems, equipment users and contractors.

View our feature on Christina Dodd's Chains of Ice. As a wildlife observer in the untamed mountains, Genny Valente had no idea that a beast more fearsome than any leopard lurked in the forest-a man, one of the Chosen Ones, betrayed by his gift and tormented by his memories. John Powell fled his fate and his duty, yet in Genny he sees his one chance for redemption.
