Engineering Change Management - [help.sap.com](http://help.sap.com)

The standard SAP system supports the effectivity types DATE (date interval) and SERNR (serial number interval) only. Since it is not possible to construct all variants based on effectivity conditions in the standard SAP system, you can create more effectivity types with the parameters you require in Customizing for Engineering Change Management. You can, for example, define the effectivity type AIRLINE (Airline) that has the parameter DEBIT (customer) as a single value.
