In 'Fatal' true crime author Harold Schechter chronicles the life and crimes of one of America's most prolific serial killers, Nurse Jane Toppan (born Honora Kelley). The book begins with Schechter discussing the case of a 1989 female serial killer and touching on a few other modern cases where the headline usually highlights a person as the "first" female serial killer in American history.

Beautiful flowers, pleasant fragrances and lush leaves are the factors that attract humans to plants, but some of these plants can be life-threatening for people. As a protective mechanism to deter animals, plants have evolved several mechanisms to keep animals from eating the plant. Poisonous leaves, berries and roots are one such mechanism.
