Developers who want to access USB devices from their embedded systems will find a helpful resource in *USB Embedded Hosts: The Developer's Guide*. This new book from the author of *USB Complete* shows how small systems can take advantage of the same wealth of USB devices available to conventional PCs. The book begins with a review of USB host communication protocols. Readers then learn which USB host requirements are relaxed for embedded systems and what new requirements some embedded systems must meet. To help in selecting a development platform, the book explores available hardware and software for USB host communications in small systems. The heart of the book focuses on communicating with USB devices. The topics (with example code) include USB drives, keyboards, virtual serial ports, network bridges, mics, speakers, video cameras, and printers, plus devices that don't fit defined USB classes. Also discussed are systems that support both USB host and device functions. The example code is written for the BeagleBoard-xM open development board using a distribution of Linux targeted to small systems. Also covered is how to use Linux commands and utilities to learn about, monitor, and debug communications with USB devices.

Explains how to build complex scripting functionality with minimal coding, providing coverage of functions ranging from incorporating Ajax apps and overcoming the limits of HTML and CSS to building plug-ins and using animation. Original.

Turn a run-down fiberglass boat into a first-class yacht Since it first appeared in 1991, Don Casey's *This Old Boat* has helped tens of thousands of sailors refurbish older fiberglass boats and has become a revered classic among boat rehabbers. This second edition is revised from first page to last with new information on electrical systems, diesel engines, refrigeration, resins, plumbing and more. Plus, more than 600 newly created illustrations enhance the book's beauty as well as its utility.

Paranormal romance is a supernatural force to be reckoned with. Although packed with a menagerie of werewolves, shapeshifters and assorted demons, its undisputed king is none other than our favourite centuries-old bloodsucker - the vampire. We're now living in a post-Buffy world of dark urban fantasy à la Laurell K. Hamilton's Anita Blake, Sherrilyn Kenyon's irresistible *Dark Hunters* and the blood-lusting soul mates of Christine Feehan. But it doesn't stop there. This Mammoth collection opens a vein to reveal the mind-boggling scope of the supercharged phenomenon created when vampires met romance. Let the biggest and brightest names in the paranormal romance business take you hot on the haemoglobin trail of the sexiest creatures of the night. Witness the bewildering array of complex vampire codes of conduct, dark ritual and dating practices, as they chat up the locals and engage in the most erotic encounters you will sink your teeth into this side of un-Death. These ain't your mother's vampires!
