Web Dynpro ABAP, a NetWeaver web application user interface tool from SAP, enables web programming connected to SAP Systems. The authors' main focus was to create a book based on their own practical experience. Each chapter includes examples which lead through the content step-by-step and enable the reader to gradually explore and grasp the Web Dynpro ABAP process. The authors explain in particular how to design Web Dynpro components, the data binding and interface methods, and the view controller methods. They

introduction to youth cultures in a global context. Blending theory and practice to examine a range of subcultural movements including hip hop in Japan, global graffiti writing crews, heavy metal in Europe and straight edge movements in the USA, this text answers the key questions posed by those new to the subject, including: What is a subculture? How do subcultures emerge, who participates and why? What is the relationship between deviance, resistance and the 'mainstream'? How does society react to different subcultural movements? How has global media and virtual
