"Many of the bonds my family has were forged over the dinner table and through the sharing of recipes. Cooking is the way we express our love for one another....I feel so lucky and blessed by the strong support and wonderful memories -- and the incredible recipes -- that my family has brought me. They are the heart and soul of this book." -- FROM THE INTRODUCTION Nothing is more important to Paula Deen than her family, and nothing makes that big family happier than sitting down to a meal together. In Paula Deen's The Deen Family Cookbook, Paula and the Deens, Hiers, Groovers, and Orts share their recipes and memories. Paula's beloved Aunt Peggy makes an Old-Fashioned Meat Loaf that's as good in sandwiches the next day as it is for dinner. Baby brother Bubba Hiers brings his Beer and Onion Biscuits to the table, and his daughter, Corrie, makes a simple but luscious Lemony, Buttery Baked Fish that's perfect for a weeknight dinner. (Her Carrot-Pecan Cupcakes with Cream Cheese Frosting are pretty tasty, too!) Son Jamie makes Huevos Rancheros, perfect for brunch, or try Bobby's Whole Wheat and Honey Pancakes. Husband Michael Groover knows his way around a grill: try his Company's Coming Grilled Steak and Veggie Supper for easy entertaining, and finish the evening with his Irish Coffee. Of course, there was no way The Lady herself was going to let her relatives have all the fun: Paula is, after all, Paula. She shares her recipe for the Ham and Chutney Biscuit Fingers she puts on the

table at every family party as well as the Eggplant and Sausage Lasagna that went a long way toward getting the boys to eat their vegetables. And while there's plenty of butter, bacon, and mayonnaise in these pages, you'll find some of the lighter recipes that Paula enjoys, too: Seared Scallops with Pineapple-Cucumber Salsa is her first choice for a healthful but romantic supper with Michael, and Oven-Fried Chicken Breasts with Honey-Yogurt Drizzle lets Paula indulge in her favorite foods without guilt and with room for dessert. With more than 140 recipes and dozens of beautiful color photographs, there's something here for everyone. So invite over all those aunts, uncles, cousins, and friends, and treat them to some home cooking, Deen family style.

This graduate-level text covers modeling, programming and analysis of simulation experiments and provides a rigorous treatment of the foundations of simulation and why it works. It introduces object-oriented programming for simulation, covers both the probabilistic and statistical basis for simulation in a rigorous but accessible manner (providing all necessary background material); and provides a modern treatment of experiment design and analysis that goes beyond classical statistics. The book emphasizes essential foundations throughout, rather than providing a compendium of algorithms and theorems and prepares the reader to use simulation in research as well as practice. The book is a rigorous, but concise treatment, emphasizing lasting principles but also providing specific training in modeling, programming and analysis. In addition to teaching readers how to do simulation, it also prepares them to

use simulation in their research; no other book does this. An online solutions manual for end of chapter exercises is also be provided.
