Also includes a bio of Getz.

This thorough, concise, and easy-to-use guide to capturing digital photographs provides an entire step-by-step course for budding digital photographers. All concepts are fully illustrated with sample work by internationally renowned professionals, representing editorial work, photojournalism, and everything in between. Topics covered include essential information for both film and digital photography, such as exposure controls and shutter speed, as well as digital-specific information on image editing, printing methods, and even file storage. The first digital textbook by legendary photography teacher Henry Horenstein, *Digital Photography* is the best guide yet for aspiring digital photographers, essential both for photographers transitioning from film to digital and those learning the art of photography for the first time.

This book constitutes the refereed proceedings of the 5th European Conference on Interactive Television, EuroITV 2007, held in Amsterdam, The Netherlands, May 2007. The volume covers a wide range of areas such as media studies, audiovisual design, multimedia, HCI, and management. The papers are organized in topical sections on social TV systems, user studies, the future of TV, social TV evaluation, personalization, and mobile TV.

This book is a comprehensive primer to both traditional and emerging E-Commerce technologies. Students with no prior technical knowledge will be able to grasp complex topics such as networking, Internet security, Web languages and other important subjects in a way that illustrates their use through case studies and practice by completing Web projects.
