I'm using my SM-8 on my IC-7100 and IC-7200 and receive great audio reports over the stock mics .It feels solid and it's certainly built to last .I like the fact that you can run two radios of it unlike the SM-20 ,30 and 50 .Icom should think a bit more when designing new accessories .Keep up the good work Icom .

This is one of my favorite desk mikes. It can be picked up and handled easily or lock the button and talk from 2 feet away. It works with many Icoms and I have always been able to count on this mic to get me good audio reports. I like it better than the sm-20 because it works just as good but you can pick it up and use it with comfort.
