been a 'dumbing down' of the news agenda? How can serious political, economic and social news be made interesting to young people? This book explores the current challenges faced by those working in the news media, focusing especially on the responsibilities of journalism in the advanced democracies. The authors comprise experienced journalists and academics from the UK and the other countries investigated. In the opening section they investigate the key issues facing twenty-first century journalism; while in section two they offer in-depth studies of the UK news media, discussing national newspapers; regional and local newspapers, both paid for and free; terrestrial, satellite

Word and cable television news; radio news and online journalism.

These detailed analyses provide the basis for a comparison with the media of a variety of other key advanced democracies: namely the USA, France, Germany, Italy and Japan.

Drawing on this evidence, the authors map out possible future developments, paying attention to their likely global impact. The book's provocative conclusions will provide the groundwork for continuing debate amongst journalists, scholars and policy-makers concerned about the place of journalism in invigorating political processes and democratic functions.

Media prognosticators have been

declaring the death of radio, daily newspapers, journalistic ethics, and even journalism itself. This is an introductory text on how to think, report, write, and present news across platforms. It aims to prepare journalism students for the future of news reporting.

In this much-needed examination of the principles of multimedia journalism, experienced journalists Richard Koci Hernandez and Jeremy Rue systemize and categorize the characteristics of the new, often experimental story forms that appear on today's digital news platforms. By identifying a classification of digital news packages, and introducing a new vocabulary for how content is

packaged and presented, the authors give students and professionals alike a way to talk about and understand the importance of story design in an era of convergence storytelling. Online, all forms of media are on the table: audio, video, images, graphics, and text are available to journalists at any type of media company as components with which to tell a story. This book provides insider instruction on how to package and interweave the different media forms together into an effective narrative structure. Featuring interviews with some of the most exceptional storytellers and innovators of our time, including web and interactive producers at the New York Times, NPR, The

Interviewing, research techniques and news writing. Further chapters cover working in broadcasting and online. Media law and ethics are also included. Most journalists believe they work ethically although few have set rules and others admit to being pressured to behave underhandedly. This book looks at how journalists can work more ethically and provides a guide for beginners. The book is easy to read. Each chapter concludes with activities and a list of further reading. A glossary of terms is included at the end of the book.
