THE FIRST WORLD WAR IN THE AIR...MANNOCK, McCUDDEN, VON RICHTHOFEN, UDET...TRUE STORIES OF THE GREATEST ACES At the beginning of World War I the military potential of the airplane was completely unknown....THE ACES tells the stories of the hardy men who converted the skies over France and Germany into a modern jousting field. “ The general aim of this book is twofold: to uncover the personalities of the men called ‘ aces ’ , and to show the reader the actual birth of courage and tenacity in wartime airpower, a heritage now shared equally by the air forces of the world. ” —Frederick Oughton, Introduction

In 'Church and State', Andrew Partington argues that the contribution of the Church of England bishops to the House of Lords during the Thatcher years was overwhelmingly critical of the government; failed to have a significant influence in the public realm; was inefficient, being undertaken by a minority of those eligible to sit on the Bench of Bishops; and was insufficiently moral and spiritual in its content to be distinctive. On the basis of this, and the likely reduction of the number of places available for Church of England bishops in a fully reformed Second Chamber, the author argues for an evolution in the Church of England's approach to the service of its bishops in the House of Lords. He proposes the Church of England work to overcome the genuine obstacles that hinder busy diocesan bishops from contributing to the debates of the House of Lords and to its life more informally.
