In his 2003 National Book Award-winning memoir *Waiting for Snow in Havana*, Carlos Eire narrated his coming of age in Cuba just before and during the Castro revolution. That book literally ends in midair as eleven-year-old Carlos and his older brother leave Havana on an airplane—along with thousands of other children—to begin their new life in Miami in 1962. It would be years before he would see his mother again. He would never again see his beloved father. *Learning to Die in Miami* opens as the plane lands and Carlos faces, with trepidation and excitement, his new life. He quickly realizes that in order for his new American self to emerge, his Cuban self must "die." And so, with great enterprise and purpose, he begins his journey. We follow Carlos as he adjusts to life in his new home. Faced with learning English, attending American schools, and an uncertain future, young Carlos confronts the age-old immigrant's plight: being surrounded by American bounty, but not able to partake right away. The abundance America has to offer excites him and, regardless of how grim his living situation becomes, he eagerly forges ahead with his own personal assimilation program, shedding the vestiges of his old life almost immediately, even changing his name to Charles. Cuba becomes a remote and vague idea in the back of his mind, something he used to know well, but now it "had ceased to be part of the world." But as Carlos comes to grips with his strange surroundings, he must also struggle with everyday issues of growing up. His constant movement between foster homes and the eventual realization that his parents are far away in Cuba bring on an acute awareness that his life has irrevocably changed. Flashing back and forth between past and future, we watch as Carlos balances the divide between his past and present homes and finds his way in this strange new world, one that seems to hold the exhilarating promise of infinite possibilities and one that he will eventually claim as his own. An exorcism and an ode, *Learning to Die in Miami* is a celebration of renewal—of those times when we're certain we have died and then are somehow, miraculously, reborn.

A childhood in a privileged household in 1950s Havana was joyous and cruel, like any other—but with certain differences. The neighbour's monkey was liable to escape and run across your roof. Surfing was conducted by driving cars across the breakwater. Lizards and firecrackers made frequent contact. Carlos

Eire's childhood was a little different from most. His father was convinced he had been Louis XVI in a past life. At school, classmates with fathers in the Batista government were attended by chauffeurs and bodyguards. At a home crammed with artifacts and paintings, portraits of Jesus spoke to him in dreams and nightmares. Then, in January 1959, the world changes: Batista is suddenly gone, a cigar-smoking guerrilla has taken his place, and Christmas is cancelled. The echo of firing squads is everywhere. And, one by one, the author's schoolmates begin to disappear-spirited away to the United States. Carlos will end up there himself, without his parents, never to see his father again. Narrated with the urgency of a confession, *WAITING FOR SNOW IN HAVANA* is both an ode to a paradise lost and an exorcism. More than that, it captures the terrible beauty of those times in our lives when we are certain we have died-and then are somehow, miraculously, reborn.

Eddie is a wounded war veteran, an old man who has lived, in his mind, an uninspired life. His job is fixing rides at a seaside amusement park. On his 83rd birthday, a tragic accident kills him, as he tries to save a little girl from a falling cart. He awakes in the afterlife, where he learns that heaven is not a destination. It's a place where your life is explained to you by five people, some of whom you knew, others who may have been strangers. One by one, from childhood to soldier to old age, Eddie's five people revisit their connections to him on earth, illuminating the mysteries of his "meaningless" life, and revealing the haunting secret behind the eternal question: "Why was I here?"

Miami's most notorious crime family, the di Blasios, makes a startling decision: he leaves the business in the hands of his daughter, Willa. So far she's stayed in the background, letting her brothers take center stage. Now, as the new number one, she's learning that gun-running is a lot harder than she thought, and made more difficult by the nosy but beautiful detective who turns up hellbent on bringing her down. Detective Layke Owen has always listened to instinct. It's gotten her far. So when her instinct tells her that Willa di Blasio is now running the show, she has to prove her theory, even if it means following the girl's every move. But Willa is too savvy for her, too smart, and just a little too intriguing. What starts out as a game of cat and mouse soon turns into something more. Something neither woman was prepared for. Amidst the power struggles, proving themselves, and dead bodies piling up around them, can two women devoted to such conflicting jobs ever find happiness together? \*\*The Queen of Miami is a steamy lesbian crime drama.\*\*

The Buddhist approach to death can be of great benefit to people of all backgrounds—as has been demonstrated time and again in Joan Halifax's decades of work with the dying and their caregivers. Inspired by traditional Buddhist teachings, her work is a source of wisdom for all those who are charged with a dying person's care, facing their own death, or wishing to explore and contemplate the transformative power of the dying process. Her teachings affirm that we can open and contact our inner strength, and that we can help others who are suffering to do the same.

In this dramatic adaptation of her award-winning, bestselling memoir, Joan Didion transforms the story of the sudden and unexpected loss of her husband and their only daughter into a stunning and powerful one-woman play. "This happened on December 30, 2003. That may seem a while ago but it won't when it happens to you . . ." Michiko Kakutani in *The New York Times* called the memoir that was the basis for the play, "an indelible portrait of loss and grief . . . a haunting portrait of a four-decade-long marriage." The first theatrical production of *The Year of Magical Thinking* opened at the Booth Theatre on March 29, 2007, starring Vanessa Redgrave and directed by David Hare.

□ In 1959, Fidel Castro assumed power in Cuba after overthrowing the government of Fulgencio Batista. In response, thousands of Cubans fled the island, mostly to the United States. This book tells the stories of these Cubans in exile, all of whom overcame great obstacles to escape the brutal Castro regime. Neither a history of Cuba nor of Castro, this book illuminates the underrepresented legacy of the Cuban Exile Community and celebrates their continued thriving in a new country.
