This IBM® Redbooks® publication will help you to install, tailor, and configure the Open Systems Adapter (OSA) features that are available on IBM zEnterprise® servers. It focuses on the hardware installation and the software definitions that are necessary to provide connectivity to LAN environments. This information will help you with planning and system setup. This book also includes helpful utilities and commands for monitoring and managing the OSA features. This information will be helpful to systems engineers, network administrators, and system programmers who plan for and install OSA features. The reader is expected to have a good understanding of IBM System z® hardware, Hardware Configuration Definition (HCD) or the input/output configuration program (IOCP), Open Systems Adapter Support Facility (OSA/SF), Systems Network Architecture/Advanced Peer-to-Peer Networking (SNA/APPN), and TCP/IP protocol.

This title prepares users for the MCSE exam for 70-215: Installing, Configuring, and Administering Microsoft Windows 2000 Server.

This volume contains the proceedings of UIC 2009, the 6th International Conference on Ubiquitous Intelligence and Computing: Building Smart Worlds in Real and Cyber Spaces. The UIC 2009 conference was technically co-sponsored by the IEEE and the IEEE Computer Society Technical Committee on Scalable Computing. The conference was also sponsored by the Australian Centre of Excellence in Information and Communication Technologies (NICTA). UIC 2009 was accompanied by six workshops on a variety of research challenges within the area of ubiquitous intelligence and computing. The conference was held in Brisbane, Australia, July 7-9, 2009. The event was the sixth meeting of this conference series. USW 2005 (First International Workshop on Ubiquitous Smart World), held in March 2005 in Taiwan, was the first event in the series. This event was followed by UISW 2005 (Second International Symposium on Ubiquitous Intelligence and Smart Worlds) held in December 2005 in Japan. Since 2006, the conference has been held annually under the name UIC (International Conference on Ubiquitous Intelligence and Computing). UIC 2006 was held in September 2006 in Wuhan and ThreeGorges, China, followed by UIC 2007 held in July 2007 in HongKong, and UIC 2008 held in June 2008 in Oslo, Norway. Ubiquitous sensors, computers, networks and information are paving the way towards smart world in which computational intelligence is distributed throughout the physical environment to provide reliable and relevant services to people.

Quick Guide to Flash Catalyst covers how to build interactive websites and interfaces easily in Flash Catalyst using designs imported in Photoshop and Illustrator formats. Also, the book will cover how to convert static artwork to interactive components, add actions to it, and publish it as SWF and AIR applications.

In this important new book, Mohan Kelkar, a respected author and professor, presents the quintessential guide for gas engineers, emphasizing the practical aspects of natural gas production. Readers will learn to incorporate cutting-edge research in estimating reserves, evaluating the performance of fractured wells, processing gas, and material balance analysis; learn to evaluate future performance of gas reservoirs; learn to improve the performance of gas wells; and more.

Appropriate for Calculus courses taken by Engineering students, this second edition of Calculus for Engineers should be of interest to engineers who are studying calculus. Using an early transcendental approach, Trim emphasizes practical applications drawn from various engineering fields.

From one of Colombia's leading novelists, a tragicomic story of unrequited love and a view of New York through the wide eyes of an illegal immigrant Paradise Travel recounts the adventures of Marlon Cruz, a naïve young man from Medellín, Colombia, who agrees to accompany the beautiful, ambitious woman he loves to New York. On their first night in Queens, Marlon and Reina lose each other, thus initiating Marlon's descent into the underbelly of our country. A leader of the gritty-realist movement known as McOndo, Jorge Franco evokes the follies and pains of unrequited love at the same time that he explores deeper inequalities between North and South America. Moving between lower-middle-class Colombia and immigrant New York (specifically, the Jackson Heights neighborhood seen recently in the movie Maria Full of Grace), Paradise Travel is an exciting work from a rising star, celebrated by Gabriel Garcia Márquez as "one of those to whom I should like to pass the torch" of Colombian fiction. Praise for Rosario Tijeras: "Latin America's McOndo literary movement drags the butterflies of magical realism into Burger King. With Jorge Franco's narco-saga Rosario Tijeras, it may have found its first masterpiece." | Rachel Aviv, Salon

When it comes to obesity, diabetes, heart disease, cancer, and depression, everything you believe is a lie. With research gleaned from the National Institutes of Health, T.S. Wiley and Bent Formby deliver staggering findings: Americans really are sick from being tired. Diabetes, heart disease, cancer, and depression are rising in our population. We're literally dying for a good night's sleep. Our lifestyle wasn't always this way. It began with the invention of the lightbulb. When we don't get enough sleep in sync with seasonal light exposure, we fundamentally alter a balance of nature that has been programmed into our physiology since day one. This delicate biological rhythm rules the hormones and neurotransmitters that determine appetite, fertility, and mental and physical health. When we rely on artificial light to extend our day until 11 p.m., midnight, and beyond, we fool our bodies into living in a perpetual state of summer. Anticipating the scarce food supply and forced inactivity of winter, our bodies begin storing fat and slowing metabolism to sustain us through the months of hibernation and hunger that never arrive. Our own survival instinct, honed over millennia, is now killing us. Wiley and Formby also reveal: -That studies from our own government research prove the role of sleeplessness in diabetes, heart disease, cancer, infertility, mental illness, and premature aging -Why the carbohydrate-rich diets recommended by many health professionals are not only ridiculously ineffective but deadly -Why the lifesaving information that can turn things around is one of the best-kept secrets of our day. Lights Out is one wake-up call none of us can afford to miss.
