But a manual auger is one that you crank by hand through the clog and pull it back out. With an electric drain auger, you're able to use machine power to push it through a clog and pull it out. Because the way you operate each tool is different, there are some slight differences between the ways you go through the steps of unclogging a drain with each.

Manual lymph drainage uses a specific amount of pressure (less than 9 ounces per square inch or about 4 kPa) and rhythmic circular movements to stimulate lymph flow. Clinical studies of MLD conclude that further study of the practice is required before recommending it as an effective health treatment.

**Redexim**

Manual lymph drainage (MLD) is a very special type of skin massage designed to stimulate the lymphatic system. The hand movements and sequences are adapted for each person. It must be carried out by a qualified practitioner. Ask your lymphoedema specialist if you might benefit from MLD.

**Lymphatic drainage †**
**The Royal Marsden NHS Foundation Trust**

Manual Lymphatic Drainage (MLD) is an advanced form of massage that helps to stimulate the lymphatic system to remove congestion and stagnation from within the body, and so help it return to a healthy condlion. It is a method of gentle and rhythmical massage of the skin to encourage the movement of fluids through the tissue.
