The Nissan Patrol GU Turbocharged RD28 2.8L has copped a lot of criticism as being a bit 'gutless'. Compared to other diesel wagons in Australia the 'gutless' label has some merit. Down low, it's engine is modest on torque. And it does suffer turbo lag due to the small size of the motor compared to the body.

The Nissan RD engine series is basically a Nissan RB engine design, except that it is only a single overhead cam six-cylinder diesel engine. It was the successor to the Nissan LD and SD six-cylinder engines and was joined by the six-cylinder Nissan TD engine. From 1997 onwards the turbocharged versions were fitted with electronic fuel injection.

Nissan Ibérica-built Patrols originally received a Spanish-made Perkins MD27 four-cylinder diesel engine and Spanish transmission to meet local content regulations. Later on, this was replaced by the A428, which evolved into the A428T and then the A428II. Later yet, the RD28 and the RD28T were added to Spanish-made cars. 260 (1986–2002)
