Should I write a book on blacksmithing **Of Blacksmithing**

History of Blacksmithing. ORIGINS & IRON AGE. Blacksmithing origins first trace back to 1500 BC when the Hittites discovered the process of forging and tempering iron ore. When the Hittites were scattered in 1200 BC so was their knowledge and understanding of basic iron work. Launching into the Iron Age, a process to produce wrought iron was developed through reducing natural iron ore with heat.

Blacksmith - Wikipedia

The essence of blacksmithing is not so much strength as control. Yes, you need to "get it hot and hit it hard" sometimes, especially with larger work, but the trick is to hit the metal where you want, as hard as you want as accurately as you want. When I first started working with metal more than a decade ago, my mentor drew

an X on the anvil.

Blacksmithing for Beginners | The Art of Manliness

The art of blacksmithing has been around for centuries, and it continues to forge on into the future as people carry on the long held traditions of this craft. Even with advances in technology, many of the earliest techniques are essentially unchanged in modern blacksmithing.

Blacksmithing Basics - Oldfield Forge

Build a small forge. A simple one can be built by adding an airblast of any kind that is strong enough to withstand any kind of fire, but coal or charcoal (not briquets) works best. 2 Get some steel rods or rebar.

Hyrule Warriors: Age of Calamity Blacksmithing Guide ...

Blacksmithing is one of WoW's crafting professions - it requires materials produced with another profession, usually Mining. Blacksmiths turn various reagents (mostly metals) into plate armor, weapons, and some utility items. Unlike some of the more "magical" professions in the game, blacksmithing functions in a more direct fashion.

Blacksmiths Guild | Training and Promoting Blacksmiths for ...

Blacksmith, also called smith, craftsman who fabricates objects out of iron by hot and cold forging on an anvil. Blacksmiths who specialized in the forging of shoes for horses were called farriers. The term blacksmith derives from iron, formerly called "black metal," and farrier from the Latin ferrum, "iron."

Blacksmith | metalworker | Britannica

Blacksmithing is believed to have been started in 1,500 B.C. in what is now Syria. "Blacksmithing began with the Iron Age, when primitive man first began making tools from iron." (Blacksmithing History 1".1978). Blacksmithing probably began with very crude tools of stone to work the metal after it was heated, probably in a campfire.

An article about the history of blacksmithing

Blacksmithing Classes. What kind of ironwork do you need? Off-the-shelf won't cut it.
