Business Vocabulary in Use includes 66 easy-to-use units, with vocabulary items presented and explained on the left-hand pages and a range of practice exercises on the right-hand pages. It also includes a comprehensive answer key. The book covers a huge range of business topics including jobs; people and organisations; production; marketing; finance and the economy, and business culture. Learners will develop essential business communication skills, focusing on the language used for meetings, negotiations and presentations. [Source : 4e de couv.]

The book is a reference and practice book for elementary learners.

"The US Environmental Protection Agency (EPA), Environmental Research Laboratory - Corvallis, Oregon (ERL-C), established an Interagency Agreement with the US National Oceanic and Atmospheric Administration (NOAA), National Geophysical Data Center (NGDC) in September 1990. This agreement began a five year cooperative effort to develop a geographic database for modeling terrestrial climatebiosphere interactions in support of EPA's Global Climate Research Program. Although performing specific tasks under contract to the US EPA, NGDC independently operates a Global Change Database Program (GCDP) as part of its NOAA mission Considerable synergism therefore exists between the tasks performed for the JPA under the "Global Ecosystems Database Project," and other activities supporting NOAA Climate and Global Change Program"--Preface.

"CD-ROM provides over 200 extra exercises to help you practice the grammar presented"--P. [3] of cover.

This Companion Textbook supplements the ActivEpi CD-ROM, sold separately. The ActivEpi CD-ROM provides a multimedia presentation of concepts, commonly taught in an introductory epidemiology course. ActivEpi mixes a full array of media to motivate, explain, visualize and apply epidemiological concepts. Virtually all of the material on the ActivEpi CD-ROM is included in the Companion Textbook. Because individuals differ in their learning skills, the ActivEpi CD-ROM and the ActivEpi Companion Textbook offer readers different but related options on how to learn epidemiology. The Textbook can be used as a hardcopy reference of the textual materials contained on the CD-ROM, as a resource for the practice exercises, as a general reference, or even a self-contained textbook. ActivEpi includes 15 lessons and over 50 hours of content via more than 250 launchable activities and homework exercises. It can be used in a variety of teaching formats: distance learning, self-paced learning, on-campus courses, and short courses. For the latest additions to ActivEpi, visit David Kleinbaum's website.
