On the Edge - Richard Hammond - Google Books

Like many loyal fans, I was delighted by the return of Top Gear to BBC 2 recently (2007). A little over a year ago, however, along with what seemed like the majority of the country, I was very upset when I heard the news on September 20th 2006 of the accident suffered by one of the show's presenters, Richard Hammond.

This audio book version of On the Edge concentrates mainly on Richard Hammond's rocket-car accident and the impact it had on his life and family in the few months that followed. The opening chapters, read by Richard, are entertaining and provide a good background to his career, although certain elements have obviously been omitted for this abridged version.

Gripping account by Richard Hammond of life before and after his terrifying high-speed car crash. Richard Hammond is one of our most in-demand and best-loved television presenters. In September 2006, he suffered a serious brain injury following a high-speed car crash. ON THE EDGE is his compelling account of life before and after the accident and an honest description of his recovery, full of drama and incident. An adrenalin junkie long before his association with Top Gear, Richard tells the story of his life, from the small boy showing off with ridiculous stunts on his bicycle to the adolescent with a near-obsessive attraction to speed and the smell of petrol. After a series of jobs in local radio, he graduated to television and eventually to Top Gear. His insights into the personalities, the camaraderie and the stunts for which Top Gear has become famous, make compulsive reading. It was whilst filming for Top Gear that Richard was involved in a high speed crash, driving a jet-powered dragster. His wife Mindy tells the story of the anxious hours and days of watching and waiting until he finally emerged from his coma. In an extraordinarily powerful piece of writing, she and Richard then piece together the stages of his recovery as his shattered mind slowly reformed. The final chapter recounts his return home and his triumphant reappearance in front of the cameras.

The life and times of the No.1 bestselling author of ON THE EDGE. The wry, honest and often hilarious chronicles of a very brave and clever TV presenter, Arctic Explorer and general drawer of the Short Straw. As one third of the BBC's Top Gear team, Richard Hammond's year since his near-fatal accident has been full of stunts and drama. From a race to the North Pole (with skis and dog-sled) to a journey through Botswana in a car named Oliver, and a seventeen-mile run through floods to his Gloucestershire home, in order to get to his daughter's birthday party, the year has been eventful, to say the least . . .With his boundless optimism in the face of certain failure, Richard Hammond has become one of our funniest writers about a life (and a job) which constantly present a challenge.

ON THE ROAD: GROWING UP IN EIGHT JOURNEYS - MY EARLY YEARS is a new form of autobiography, in which TOP GEAR presenter Richard Hammond tells the story of his early life through a series of significant driving episodes. He's a child in the back seat of Dad's car on the way to the seaside in Weston-Super-Mare. He's on his first bike, a red one, in Solihull, then on his first motorcycle, a Honda MTX50. He's at the wheel of his first car (and in the back with his first girlfriend). He is driving a furniture delivery van as part of his first job in and around Ripon. Now he is showing off with a friend, risking everything. ON THE ROAD is an emotional road map in which each chapter has its own registration number, and its own distinctive interior. Most importantly, each chapter sets off and arrives. ON THE ROAD surges on to its destination, reversing or moving quickly through the gears, reliving the central episodes and conflicts of Richard's life. Every chapter is a stage in a longer journey. Although there are precious few road-rage monologues against four-wheel drivers and men in vests in white vans, Richard Hammond's readers will quickly recognise the funny self-deprecating and balanced ease that has made him one of Britain's best-loved writers and television presenters.

I was Top Gear's script editor for 13 years and all 22 series. I basically used to check spelling and think of stupid gags about The Stig. I also got to hang around with Jeremy Clarkson, Richard Hammond and James May. It didn't feel like something you should get paid for. From the disastrous pilot show of 2002 to the sudden and unexpected ending in 2015, working on Top Gear was quite a rollercoaster ride. We crossed continents, we made space ships, we bobbed across the world's busiest shipping lane in a pick-up truck. We also got chased by an angry mob, repeatedly sparked fury in newspapers, and almost killed one of our presenters. I realised that I had quite a few stories to tell from behind the scenes on the show. I remembered whose daft idea it was to get a dog. I recalled the willfully stupid way in which we decorated our horrible office. I had a sudden flashback to the time a Bolivian drug lord threatened to kill us. I decided I should write down some of these stories. So I have. I hope you like them. And now, a quote from James May: 'Richard Porter has asked me to "write a quote" for his new book about the ancient history of Top Gear. But this is a ridiculous request. How can one "write a quote"? Surely, by definition, a quote must be extracted from a greater body of writing, for the purpose of illustrating or supporting a point in an unrelated work. I cannot "write a quote" any more than I could "film an out-take". 'Porter, like Athens, has lost his marbles.'

More antics from the much-loved TOP GEAR presenter, and the No.1 bestselling author of ON THE EDGE. "There is, I discovered, a technique to performing a low-rent, comedy motorcycle jump with a bad hip joint following a low-speed fall off a horse on to your wife's Land Rover keys..." More of the wry, honest and often hilarious chronicles of Richard Hammond - TV presenter, adventurer and general drawer of the Short Straw. Continuing where AS YOU DO left off, OR IS THAT JUST ME? focuses on just a few of the many hair-raising stunts, expeditions and encounters experienced by Richard Hammond over the last eventful year.

It's cold, wet and dangerous, so why do we do it? Richard Hammond's A SHORT HISTORY OF THE MOTORCYCLE attempts to explain what it is about bikes and biking that calls to some people, leaving them powerless to resist. This entertaining guide charts the history of the bike from its origins as a cheap and modest means of transport for the masses to its modern incarnations: a terrifying symbol of rebellion and menace, a high-tech racing machine and the rich kid's plaything. We look at the bikes that have propelled people across the world to work, to school and to their doom. As for the bikers ... Edwardian ladies did it, though not in large numbers. Young bucks desperate to prove their manhood did it, because it was the cheapest speed available. Hammond examines bikers of every type, from the happy farmer trundling through fields on their Honda Cub to the Hell's Angel terrorising Californian towns on their hog. Wittily written and lavishly illustrated, A SHORT HISTORY OF THE MOTORCYCLE is a thrilling ride for bikers and non-bikers alike.

Richard Hammond has had a longstanding love affair, bordering on the obsessive some might say, with caravans. He has researched their origins and history, celebrity owners, the uses to which they have been put, their place in history, names, jargon, games with, things to do in, recipes to cook in and future of. He also gives sound practical advice on how to use them to best advantage, race them (ensuring first they are of the non-static variety), and how to destroy them in interesting ways (of which he has much experience - 80 or so at the last count). An essential guide for any owner or prospective owner or indeed anyone with even a passing interest in caravans, of whatever sex or age, or race, or inclination. Or even perhaps someone with apparently no interest in caravans who might have a previously latent interest aroused. Some even talk in hushed tones of a parallel universe, though he has no personal experience of this, yet. Anything is possible.

One positive if belated aspect of 'Cool Britannia' is that British-originated cars have become (again?) among the coolest on the planet. Range Rover, Mini, Rolls-Royce, Bentley, Aston Martin - especially the Aston Martin - these are names not only of historic significance but have a new resonance in the contemporary world too. But what of the not so cool cars, the cars you shouldn't opt to buy - and those you shouldn't even be seen in or alongside? No, not the Skoda or station wagon, which have a heroic anti-car coolness of their own, but the Golf or Astra or professional footballer's Ferrari. This is a book that jumps from an enormous height on personalised number plates, but celebrates Jarvis Cocker's decision to drive a station wagon and Roger Moore a Renault 5. It questions what happens to the status of your car after you have seen Bernard Manning or Jade Goodie posing next to a model of it in the newspaper. So there is a 'Showroom Questionnaire' for car manufacturers to check out their customers before they deign to sell them a car that might become irrevocably uncool as a result. As funny as it is cool and aspirational, WHAT NOT TO DRIVE will entertain all who love the information, banter and humour of BBC TV's Top Gear.

A fun, quirky look at the weird and wonderful side of physics, Can You Feel the Force? explores the physics of everyday things -- from how balloons stretch and stick to walls, to why the sky is blue, to why stars twinkle. Designed to appeal equally to children who are intimidated by science and those who love it, Can you Feel the Force? is not just a reference book -- it's interactive with fun activities to try at home. Inside the pages are age appropriate text and experiments that will determine what's the best seat on a roller coaster, why does bubble gum stretch, why do fighter pilots have to wear specially tightened underwear, and why the world looks weird when you drive a car at the speed of light. Discover the recipe for slime, the secret of piercing a balloon without bursting it, and find out how to stick objects together with nothing but the magical force of friction; plus learn the ideas and discoveries of Galileo, Newton, Franklin and other key players in the defining principles and laws of physics. Clear, exciting images and engaging text will make physics understandable and make kids curious to learn more in Can you Feel the Force?
