From importing bank transactions to sending invoice reminders, Xero automatically handles tasks so you can get your accounting done faster.

~~Accounting Software - Do Beautiful Business | Xero UK~~

Accounting solutions track the financial transactions within an organization. Online accounting systems are specifically designed to be used through the Internet, rather than being installed locally onto company computers. This reduces information technology requirements like server hardware, backups and maintenance and shifts the expenditure from being a large up-front capital cost to a much smaller, but ongoing, monthly or annual fee.

~~Best Online Accounting Software - 2020 Reviews & Pricing~~

What Is Online Accounting Software? Accounting solutions track the financial transactions within an organization. Typical features include: General ledger; Accounts payable/receivable; Payroll and reporting modules; Specialty systems often have additional features dedicated to a particular market.
