In the Writing & Speaking Assessment Booklet there are 12 sample answers for the Writing paper (one to correspond to each unit of the Student's Book), written by real FCE students. For each sample answer, there are notes that explain what students need to do in the task, and how the answer would be assessed by a Cambridge ESOL examiner. This booklet also includes a DVD of real FCE students taking the Speaking test, with comments from experienced examiners, so you can see exactly how this part of the test works, and understand how to accurately assess your students. The material on the DVD is supported with photocopyable worksheets, useful phrases, tips and examiner's questions in the booklet. The Using a dictionary for exams booklet is full of ideas for using dictionaries to improve your students' language skills and performance in the exam. These ideas are followed by

What if teachers could dramatically reduce the amount of time they spend reviewing and correcting student work and actually see better results in terms of student learning? That's the goal of Glen Pearsall, who shares dozens of classroom-tested strategies that lessen teachers' workload while increasing students' class participation and improving their understanding. Readers will learn how to • Refine their classroom questioning techniques to continually check students' progress and provide instant feedback; • Encourage students to internalize learning goals so they better understand what is expected of them; • Use fast, formative assessment strategies to check and correct during class time; • Modify traditional summative-testing strategies to monitor student progress in a formative way; • Speed up the correction process

via student self-proofing, representative sampling, and helpful technology tools; and • Engage students in becoming actively involved in assessing their own work. Drawing from his own experience as a teacher and coach, Pearsall offers practical, real-world advice in the form of techniques that are both effective and sustainable in the everyday classroom. The result is smarter assessment—for both teachers and students.
