human digestive system model | HUMAN ORGAN SYSTEMS | DIY ...

Organization of The Digestive System Organs of the digestive system are divided into 2 main group : the gastrointestinal tract (GI tract) and accessory structures . GI tract is a continuous tube extending through the ventral cavity from the mouth to the anus –it consists of the mouth , oral cavity , oropharynx , esophagus ,

The Digestive System

Students make their digestive system using the colourful parts working alone or in small groups. They use their model to identify the parts of the digestive system including the oesophagus, stomach, small intestine, large intestine, gallbladder and pancreas. They can then look at how food passes through the digestive system.

Digestive System – Origami Organelles

First, you'll need a big sheet of paper (about 24" x 52"). You can glue/tape two sheets of poster paper together or use the backside of wrapping paper. Brown kraft paper would also work! Next, you'll need to make an outline of the child's body. Here my son (5) made an outline of his sister's (2) body. She was just so excited to get traced!
