Competition Science Vision (monthly magazine) is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India. Well-qualified professionals of Physics, Chemistry, Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to-the-point study material for aspiring candidates. The magazine covers General Knowledge, Science and Technology news, Interviews of toppers of examinations, study material of Physics, Chemistry, Zoology and Botany with model papers, reasoning test questions, facts, quiz contest, general awareness and mental ability test in every monthly issue.

Alighar Muslim University (AMU) in the North Indian state of Uttar Pradesh is a result of great endeavour of Sir Syed Ahmed Khan. Today, it is counted among the prestigious colleges of the country and with more than 1 million books, its Maulana Azad library, it possesses the Asia's largest University library. It takes up its own entrance exams to give admission to its several courses. 15 Years' (2005-2019) Solved Papers AMU has been revised again to provide an educational assistance to aspirants preparing for AMU engineering entrance exam, also known as AMUEEE 2020. This book serves as the performance-driven practice tool to conquer all the doubts, fears and confusion about questions and concepts related to the exam. As the title refers, it is incorporated with the last 15 years solved papers of previous years' questions from 2005-2019 with authentic, analytical and augmented Solutions. Based on the latest exam pattern, it is the best book to practice and learn to perform well during the exam. Table of ContentSolved Papers (AMU Engineering) – 2018-2005

This book integrates materials science with other engineering subjects such as physics, chemistry and electrical engineering. The authors discuss devices and technologies used by the electronics, magnetics and photonics industries and offer a perspective on the manufacturing technologies used in device fabrication. The new addition includes chapters on optical properties and devices and addresses nanoscale phenomena and nanoscience, a subject that has made significant progress in the past decade regarding the fabrication of various materials and devices with nanometer-scale features.
