[Pub.06] Download Principles of Trauma Therapy: A Guide to ...

The ability to tolerate emotion (self-soothe; regulate affect) is a primary task of treatment, and accounts for the importance of Phase I. Attempts to `process ` trauma in the absence of ability to self-regulate can precipitate overwhelm and re-traumatisation. `Processing ` of complex trauma is a Stage II task and should not be encouraged in the absence of the foundational self-regulatory work of Phase I.
