Prisons are designed to house people who have broken the law and to remove them from free society. Inmates are locked away for a set period of time and have very limited freedoms during their incarceration. While every prison serves the same basic purpose, there are many different types of prisons.

Norway's prison system wasn't always held up as a shining light. It long operated under the same principles as America's, emphasizing punishment and security. But challenges inside prisons, such as violence, drugs and high recidivism rates, combined with political pressure to solve these problems, pushed the country to reevaluate.

Until the 1930s, the industrial prison—a system in which incarcerated people were forced to work for private or state industry or public works—was the prevalent prison model. Gratuitous toil, pain, and hardship became a primary aspect of punishment while administrators grew increasingly concerned about profits. 31
