Schumacher is one of the best know battery charger manufacturer on the market. They have got a wide range of battery charging utilities that are being introduced in the market and have got lots of positive response from the users.

Schumacher Battery Chargers (Top 5 Rated For Comparison)

It would take a 10 amp charger about 11 hours to recharge a dead battery to near 100% full charge. To calculate your total charge time for a battery, a good rule of thumb is to take the amp hour rating of the battery and divide by the charger rating (amps) and then add about 10% for the extra time to totally top off the battery.
