Whether you ' re completely new to iPod and iTunes or you ' d like to discover advanced techniques for playing, managing, browsing, buying, and storing music and other files, iPod & iTunes For Dummies, 6th Edition can help you! The iPod and iTunes have revolutionized how we enjoy music, and this bestselling guide has been updated to keep you current. Here ' s how to use the newest iPods, set up iTunes on your Mac or PC, purchase music and movies, rip CDs, organize your media library, make the most of digital sound, and so much more! The latest iPods are much more than just digital music players. Now, surf the Web, rent movies, buy songs and directly download them, send and receive e-mails, store photos, play slideshows, watch videos, and play games. You ' ll find information about all iPod models and how to set up iTunes so you can start enjoying your iPod right away. You ' ll learn how to: Learn how to use the iPod displays and scrolling wheels Install iTunes and load your music Keep your library organized so you can search, browse, and sort Create playlists and burn CDs Use your iPod as a hard drive Share content legally Synchronize your e-mail, contacts, and bookmarks Complete with lists of ten common problems and solutions, and eleven tips for the equalizer, iPod & iTunes for Dummies, 6th Edition includes bonus chapters about early iPod models, creating content for iPod, tips for working with MusicMatch, using your iPod for backup and restore, and 14 web sources for additional information.

Apple continues to set the bar for portable media players, but iPods still don ' t come with a guide to their impressive features. This full-color Missing Manual shows you how to play music, videos, and slideshows, shop the iTunes store, and create and manage your media library. It ' s the most comprehensive (and popular) iPod book available. The important stuff you need to know: Fill it up. Load your iPod with music, photos, movies, TV shows, games, and eBooks. Tune into iTunes. Download media from the iTunes store, rip your CDs, and organize your entire media collection. Tackle the Touch. Use the Touch to shoot photos and video, send and receive email and text messages, and make video calls to other iOS 5 gadgets. Go wireless. Sync your content and surf the Web over the air, using the Touch ' s new iOS 5 software. Get moving with the Nano. Track your workouts with the built-in Nike+ sensor; dial in FM radio; and even create slideshows. Master the Shuffle and Classic. Get your Shuffle talking with VoiceOver, and play music, video, and slideshows on your Classic.

With iPod and iTunes, Apple's gotten the world hooked on portable music, pictures, and videos. One thing they haven't delivered, though, is an easy guide for getting the most from your sleek little entertainment center. Enter iPod: The Missing Manual, 5th Edition—a book as breathtaking and satisfying as its subject. Our latest edition thoroughly covers the redesigned iPod Nanos, the video iPod, the tiny Shuffle and the overhauled iTunes 7. Each custom-designed page sports easy-to-follow color graphics, crystal-clear explanations, and guidance on the most useful things your iPod can do. Topics include: Out of the box and into your ears. Learn how to install iTunes, load music on your iPod, and how to get rid of that dang, flashing "Do not disconnect" message. Bopping around the iPod. Whether you've got a tiny Shuffle or a big-screen model you'll learn everything from turning your iPod off and on to charging your iPod without a computer. Special coverage for iPod owners with trickster friends: How to reset the iPod's menus to English if they've been changed to, say, Korean. In tune with iTunes. iTunes can do far more than your father's jukebox. Learn how to pick and choose which parts of your iTunes library loads onto your iPod, how to move your sacred iTunes Folder to a bigger hard drive, and how to add album covers to your growing collection. The power of the iPod. Download movies, play photo slideshows, find cool podcasts, and more: this book shows you how to unleash all your iPod's power. iPod is simply the best music player available, and this is the manual that should have come with it.
