A basic guide to the inspection, repair, and maintenance of tires and tracks for off-road vehicles.

Create your own natural language training corpus for machine learning. Whether you ' re working with English, Chinese, or any other natural language, this hands-on book guides you through a proven annotation development cycle—the process of adding metadata to your training corpus to help ML algorithms work more efficiently. You don ' t need any programming or linguistics experience to get started. Using detailed examples at every step, you ' ll learn how the MATTER Annotation Development Process helps you Model, Annotate, Train, Test, Evaluate, and Revise your training corpus. You also get a complete walkthrough of a real-world annotation project. Define a clear annotation goal before collecting your dataset (corpus) Learn tools for analyzing the linguistic content of your corpus Build a model and specification for your annotation project Examine the different annotation formats, from basic XML to the Linguistic Annotation Framework Create a gold standard corpus that can be used to train and test ML algorithms Select the ML algorithms that will process your annotated data Evaluate the test results and revise your annotation task Learn how to use lightweight software for annotating texts and adjudicating the annotations This book is a perfect companion to O ' Reilly ' s Natural Language Processing with Python.

2003-2006 HONDA CBR600RR

Lights, Camera,Worship! is a manual for all of your technical needs. To draw people into your church with incredible worship experiences, you need to learn more about how to get the most from your lighting, sound, video, and projection systems. This is your one stop resource! Written by an experienced professional and consultant, this book will show you how to successfully run the major components that, done correctly, will make your church presentation the absolute best it can be and will draw more people in! This is packed with information that will not only show you how to use the technology, but how to troubleshoot and problem-solve in the areas you need it most from running a new control board to uniting your lighting and audio visual systems as one integrated unit. This won't just show you how to operate your systems - it will make your production go from OK to WOW!
