Awakening in a bleak landscape, Cass Dollar vaguely recalls enduring something terrible. Having no idea how many days—or weeks—have passed, she slowly realizes the horrifying truth: her daughter, Ruthie, has vanished. And with her, nearly all of civilization. Instead of winding through the once-lush hills, the roads today see only cannibalistic Beaters—people turned hungry for human flesh by a government experiment gone wrong. In a broken, barren California, Cass will undergo a harrowing quest to get Ruthie back. Few people trust an outsider—much less one who bears the telltale scars of a Beater attack—but she finds safety with an enigmatic outlaw, Smoke. And she'll need him more than ever when his ragged band of survivors learn that she and Ruthie have become the most feared, and desired, weapons in a brave new world.

Examines the fundamental issue of how citizens get government officials to provide them with the roads, schools, and other public services they need by studying communities in rural China. In authoritarian and transitional systems, formal institutions for holding government officials accountable are often weak. The state often lacks sufficient resources to monitor its officials closely, and citizens are limited in their power to elect officials they believe will perform well and to remove them when they do not. The answer, Lily L. Tsai found, lies in a community's social institutions. Even when formal democratic and bureaucratic institutions of accountability are weak, government officials can still be subject to informal rules and norms created by community solidary groups that have earned high moral standing in the community.

The Manchester Physics Series General Editors: D. J. Sandiford; F. Mandl; A. C. Phillips Department of Physics and Astronomy, University of Manchester Properties of Matter B. H. Flowers and E. Mendoza Optics Second Edition F. G. Smith and J. H. Thomson Statistical Physics Second Edition E. Mandl Electromagnetism Second Edition I. S. Grant and W. R. Phillips Statistics R. J. Barlow Solid State Physics Second Edition J. R. Hook and H. E. Hall Quantum Mechanics F. Mandl Particle Physics Second Edition B. R. Martin and G. Shaw The Physics of Stars Second Edition A. C. Phillips Computing for Scientists R. J. Barlow and A. R. Barnett Statistical Physics, Second Edition develops a unified treatment of statistical mechanics and thermodynamics, which emphasises the statistical nature of the laws of thermodynamics and the atomic nature of matter. Prominence is given to the Gibbs distribution, leading to a simple treatment of quantum statistics and of chemical reactions. Undergraduate students of physics and related sciences will find this a stimulating account of the basic physics and its applications. Only an elementary knowledge of kinetic theory and atomic physics, as well as the rudiments of quantum theory, are presupposed for an understanding of this book. Statistical Physics, Second Edition features: A fully integrated treatment of thermodynamics and statistical mechanics. A flow diagram allowing topics to be studied in different orders or omitted altogether. Optional "starred" and highlighted sections containing more advanced and specialised material for the more ambitious reader. Sets of problems at the end of each chapter to help student understanding. Hints for solving the problems are given in an Appendix.

Introducing Wyoming's Sheriff Walt Longmire in this riveting novel from the New York Times bestselling author of Hell Is Empty and As the Crow Flies, the first in the Longmire Mystery Series, the basis for LONGMIRE, the hit Netflix original drama series. Fans of Ace Atkins, Nevada Barr and Robert B. Parker will love this outstanding first novel, in which New York Times bestselling author Craig Johnson introduces Sheriff Walt Longmire of Wyoming's Absaroka County. Johnson draws on his deep attachment to the American West to produce a literary mystery of stunning authenticity, and full of memorable characters. After twenty-five years as sheriff of Absaroka County, Walt Longmire's hopes of finishing out his tenure in peace are dashed when Cody Pritchard is found dead near the Northern Cheyenne Reservation. Two years earlier, Cody has been one of four high school boys given suspended sentences for raping a local Cheyenne girl. Somebody, it would seem, is seeking vengeance, and Longmire might be the only thing standing between the three remaining boys and a Sharps .45-70 rifle. With lifelong friend Henry Standing Bear, Deputy Victoria Moretti, and a cast of characters both tragic and humorous enough to fill in the vast emptiness of the high plains, Walt Longmire attempts to see that revenge, a dish best served cold, is never served at all.

La Place de la Concorde Suisse is John McPhee's rich, journalistic study of the Swiss Army's role in Swiss society. The Swiss Army is so quietly efficient at the art of war that the Israelis carefully patterned their own military on the Swiss model.

Postmodernity in Spanish Fiction and Culture attempts a concise approach to the question of postmodernity in Spain since the advent of democracy. The study presents Spain as one of the most postmodern of all European nations and argues that exclusive social and cultural experiences such as the movida, the desencanto, political pasotismo, immigration, globalization, and terrorism are not only patently Spanish but also that in their totality, they constitute a powerful postmodern current in Spain.

A collection of eight critical essays on the classical tragedy, arranged in the chronological order of their original publication.

Kinsley Aaron has a crush on her boss Christopher Fortune Jones, but his secrecy about his past makes her wonder if they could have a future together.

For English read British which is not to quibble with the title but, as Jim Ring himself explains, 'During the period on which this book focuses, it was the custom - in the words of a Scot - "to let the part - the larger part - speak for the whole.'" Those countries which received them - France, Italy, Austria, Germany, and above all Switzerland - all talked of the English, and the presence of the English in the Alps was precisely so described. To use the term British would thus have been an anachronism.' The nineteenth century will forever be associated with the growth of the British Empire, but nearer home there was a quieter conquest taking place. Gradually the English were taking over the Alps, scaling their peaks, driving railways through them, and introducing both winter sports and those quintessential English institutions - tea, baths, lawn tennis and churches - to remote mountain villages. Jim Ring tells the remarkable story of the English love affair with the Alps, from its beginnings with the Romantic movement, when poets such as Byron and Shelly wrote of the mountains with awed delight, through the great days of the 1850s and 1860s and the formation of the Alpine Club, to the inter-war years when the English assured the future prosperity of the alpine resorts by virtually inventing and then popularizing downhill-skiing. Part history, part biography, How the English made the Alps brings the characters - the artists, the scientists, the gentleman-adventurers, the invalids, the aristocrats, eccentrics and mountain-scrabblers - vividly to life. 'Jim Rings's book cannot be bettered.' Daily Mail 'Fascinating' Stephen Venables, Daily Telegraph 'Evocative and entertaining' Financial Times 'A comprehensive, well-written account of a fascinating subject' Guardian

Utilizing a clear, concise writing style, and a use of relevant, real world examples, Soo Tan introduces abstract mathematical concepts with his intuitive approach that brings abstract ideas to life.
