## Curriculum A Study In

Learner Centered curriculum  
the center of interest is  
the learner. The students  
are given more importance in  
this type of curriculum  
design. Most of the  
education experts and  
educational psychologists  
are in favor of this learner  
centered curriculum. First  
of all Rousseau emphasized  
that education should be  
according to the interests  
of the child.

As noted in, *Learner-Centered Teaching: Five Key Changes to Practice*, the focus needs to change from the amount of material the students are learning, to the type of material the students are learning (Weimer, 2002). In many school districts across America, the focus is to get through as many sections of material as possible because that is the way to prepare students for the standardized tests that awaits each and every one of

Building theoretical skills to put theory into practice. An overview: Learner-centered teaching is an approach to teaching that is increasingly being encouraged in education. Learner-centered teachers do not employ a single teaching method. This approach emphasizes a variety of different types of methods that focus on what the students are learning, it changes the role of the teachers from a provider of information to facilitating student learning. Traditional

4 Principles Of Student-  
Centered Learning  
TeachThought

Learner centred teaching is an approach that places the learner at the centre of the learning. This means that the learner or student is responsible for learning while the tutor is responsible for facilitating the learning. This is also known as student-centred learning. The road to learner success

Centered Teaching | Teaching

...

A learner-centered environment facilitates a more collaborative way for students to learn. The teacher models instructions and acts as a facilitator, providing feedback and answering questions when needed. It's the student that chooses how they want to learn, why they want to learn that way and with who.
