The Planets. With her bestsellers Longitude and Galileo's Daughter, Dava Sobel introduced readers to her rare gift for weaving complex scientific concepts into a compelling narrative. Now Sobel brings her full talents to bear on what is perhaps her most ambitious topic to date-the planets of our solar system.

~~The Planets by Dava Sobel - Goodreads~~

Planets is a whistle-stop tour of the planets of the solar system. Dava Sobel's prose is a pleasure to read. The narratives she spins for each planet, while sometimes a bit silly, are always compelling. The Kindle edition of this book, however, is poorly converted. Quotations are badly formatted and the illustrations are completely missing.

□ Sobel continues her streak of luminous science writing with this fascinating, witty, and most elegant history of the women who worked in critical positions at the Harvard Observatory□. Readers with only the most cursory of interest in the night sky will find themselves beguiled by Sobel's prose and invigorated by this long-overlooked history of those whose resolute ambition paved the ...

~~Dava Sobel~~

Dava Sobel (born June 15, 1947) is an American writer of popular expositions of scientific topics. Her books include Longitude, about English clockmaker John Harrison, and Galileo's Daughter, about Galileo's daughter Maria Celeste, and The Glass Universe: How the Ladies of the Harvard Observatory Took the Measure of the Stars

~~The Planets by Sobel, Dava - Amazon.ae~~

Sobel juxtaposes planetary knowledge gained robotically in the last half century - knowledge that can seem almost pedestrian to us - with the long-ago myths and god-like status given to planets as an explanation for them was sought. I once interviewed people for a print publication.
