An extraordinary story, never before told: The intimate, behind-the-scenes life of an American boy raised by his terrorist father—the man who planned the 1993 World Trade Center bombing. What is it like to grow up with a terrorist in your home? Zak Ebrahim was only seven years old when, on November 5th, 1990, his father El-Sayyid Nosair shot and killed the leader of the Jewish Defense League. While in prison, Nosair helped plan the bombing of the World Trade Center in 1993. In one of his infamous video messages, Osama bin Laden urged the world to "Remember El-Sayyid Nosair." For Zak Ebrahim, a childhood amongst terrorism was all he knew. After his father's incarceration, his family moved often, and as the perpetual new kid in class, he faced constant teasing and exclusion. Yet, though his radicalized father and uncles modeled fanatical beliefs, to Ebrahim something never felt right. To the shy, awkward boy, something about the hateful feelings just felt unnatural. In this book, Ebrahim dispels the myth that terrorism is a foregone conclusion for people trained to hate. Based on his own remarkable journey, he shows that hate is always a choice—but so is tolerance. Though Ebrahim was subjected to a violent, intolerant ideology throughout his childhood, he did not become radicalized. Ebrahim argues that people conditioned to be terrorists are actually well positioned to combat terrorism, because of their ability to bring seemingly incompatible ideologies together in conversation and advocate in the fight for peace. Ebrahim argues that everyone, regardless of their upbringing or circumstances, can learn to tap into their inherent empathy and embrace tolerance over hatred. His original, urgent message is fresh, groundbreaking, and essential to the current discussion about terrorism.

The author discusses his life as the son of a terrorist and how he came to reject his father's ideology

and embrace the path of nonviolence.

Part of the TED series: The Terrorist's Son What is it like to grow up with a terrorist in your home? Zak Ebrahim was only seven years old when, on November 5th, 1990, his father El-Sayed Nosair shot and killed the leader of the Jewish Defense League. While in prison, Nosair helped plan the bombing of the World Trade Center in 1993. In one of his infamous video messages, Osama bin Laden urged the world to "Remember El-Sayed Nosair." In both The Terrorist's Son and his inspiring TED TALK, Ebrahim dispels the myth that terrorism is an foregone conclusion for people trained to hate. Based on his own remarkable journey, he shows that hate is always a choice—and so is tolerance. Though Ebrahim was subjected to a violent, intolerant ideology throughout his childhood, he did not become radicalised. Terrorist groups tap into certain vulnerabilities that are usually circumstantial: poverty, oppression, disenfranchisement, lack of resources and options. Ebrahim shows how those same vulnerabilities can create great strengths, leading people to form great reserves of empathy and tolerance. He believes that, because we all have a deep capacity for empathy, humans have the choice—and can find the will—to reject negative ideology.

Son of Hamas is now available in softcover with an all-new chapter about events since the book's release such as the revelation of Mosab's Israeli intelligence handler's true identity, and Homeland Security's effort to deport the author. Since he was a small boy, Mosab Hassan Yousef has had an inside view of the deadly terrorist group Hamas. The oldest son of Sheikh Hassan Yousef, a founding member of Hamas and its most popular leader, young Mosab assisted his father for years in his political activities while being groomed to assume his legacy, politics, status . . . and power. But everything changed when Mosab turned away from terror and violence, and embraced instead the teachings of another famous Middle East leader. In Son of Hamas, Mosab reveals new information about the world's most dangerous terrorist organization and unveils the truth about his own role, his agonizing separation from family and homeland, the dangerous decision to make his newfound faith public, and his belief that the Christian mandate to "love your enemies" is the only way to peace in the Middle East.

Sixteen-year-old Miro had instructions to kill the bus driver immediately. They would then take the busload of children to the bridge and begin the standoff. Artkin was Miro's mentor; the mastermind behind this act of terrorism that would get the world's attention. But Artkin had told Miro that the bus driver would be an old man. Sixteen-year old Kate sometimes substituted for her uncle and drove his bus when he was ill. She even got a special license to do so, and she'd always liked kids. She wondered what was going on when the van in front of her stopped, but when the man and the boy with guns forced their

way onto the bus, she knew her worst nightmare was beginning.

In his extraordinary and highly charged new novel, John Updike tackles one of America's most burning issues - the threat of Islamist terror from within. Set in contemporary New Jersey, Terrorist traces the journey of one young man, from radicalism to fundamentalism to terrorism, against the backdrop of a fraying urban landscape and an increasingly fragmented community. In beautiful prose, Updike dramatizes the logic of the fundamentalist terrorist - but also suggests ways in which we can counter it, in our words and our actions . . .

AN INSTANT #1 NEW YORK TIMES BESTSELLER? Named one of the most anticipated novels of the season by People, Associated Press, Time, Los Angeles Times, Parade, St. Louis Post-Dispatch, The Guardian, Publishers Weekly, and more. From the #1 bestselling authors Hillary Clinton and Louise Penny comes a novel of unsurpassed thrills and incomparable insider expertise—State of Terror. After a tumultuous period in American politics, a new administration has just been sworn in, and to everyone's surprise the president chooses a political enemy for the vital position of secretary of state. There is no love lost between the president of the United States and Ellen Adams, his new secretary of state. But it's a canny move on the part of the president. With this appointment, he silences one of his harshest critics, since taking the job means Adams must step down as head of her multinational media conglomerate. As the new president addresses Congress for the first time, with Secretary Adams in attendance, Anahita Dahir, a young foreign service officer (FSO) on the Pakistan desk at the State Department, receives a baffling text from an anonymous source. Too late, she realizes the message was a hastily coded warning. What begins as a series of apparent terrorist attacks is revealed to be the beginning of an international chess game involving the volatile and Byzantine politics of Pakistan, Afghanistan, and Iran; the race to develop nuclear weapons in the region; the Russian mob; a burgeoning rogue terrorist organization; and an American government set back on its heels in the international arena. As the horrifying scale of the threat becomes clear, Secretary Adams and her team realize it has been carefully planned to take advantage of four years of an American government out of touch with international affairs, out of practice with diplomacy, and out of power in the places where it counts the most. To defeat such an intricate, carefully constructed conspiracy, it will take the skills of a unique team: a passionate young FSO; a dedicated journalist; and a smart, determined, but as yet untested new secretary of state. State of Terror is a unique and utterly compelling international thriller cowritten by Hillary Rodham Clinton, the 67th secretary of state, and Louise Penny, a multiple award-winning #1 New York Times bestselling novelist.

## Read Book The Terrorists Son A Story Of Choice Zak Ebrahim

First published in 1977 in the US and Britain to universal critical acclaim, Hitler's Children quickly became a world-wide best seller, translated into many other languages, including Japanese. It tells the story of the West German terrorists who emerged out of the 'New Left' student protest movement of the late 1960s. With bombs and bullets they started killing in the name of 'peace'. Almost all of them came from prosperous, educated families. They were 'Hitler's children' not only in that they had been born in or immediately after the Nazi period - some of their parents having been members of the Nazi party - but also because they were as fiercely against individual freedom as the Nazis were. Their declared ideology was Communism. They were beneficiaries of both American aid and the West German economic miracle. Despising their immeasurable gifts of prosperity and freedom, they 'identified' themselves with Third World victims of wars, poverty and oppression, whose plight they blamed on 'Western imperialism'. In reality, their terrorist activity was for no better cause than self-expression. Their dreams of leading a revolution were ended when one after another of them died in shoot-outs with the police, or was blown up with his own bomb, or was arrested, tried, and condemned to long terms of imprisonment. All four leaders of the Red Army Faction (dubbed 'the Baader-Meinhof gang' by journalists) committed suicide in prison.

In See No Evil, one of the CIA's top field officers of the past quarter century recounts his career running agents in the back alleys of the Middle East. In the process, Robert Baer paints a chilling picture of how terrorism works on the inside and provides compelling evidence about how Washington politics sabotaged the CIA's efforts to root out the world's deadliest terrorists. On the morning of September 11, 2001, the world witnessed the terrible result of that intelligence failure with the attack on the World Trade Center and the Pentagon. In the wake of those attacks, Americans were left wondering how such an obviously long-term, globally coordinated plot could have escaped detection by the CIA and taken the nation by surprise. Robert Baer was not surprised. A twenty-one-year veteran of the CIA's Directorate of Operations who had left the agency in 1997, Baer observed firsthand how an increasingly bureaucratic CIA lost its way in the post-cold war world and refused to adequately acknowledge and neutralize the growing threat of Islamic fundamentalist terror in the Middle East and elsewhere. A throwback to the days when CIA operatives got results by getting their hands dirty and running covert operations, Baer spent his career chasing down leads on suspected terrorists in the world's most volatile hot spots. As he and his agents risked their lives gathering intelligence, he watched as the CIA reduced drastically its operations overseas, failed to put in place people who knew local languages and customs, and rewarded workers who knew how to play the political games of the agency's suburban Washington headquarters but not how to recruit agents on the ground. See No Evil is not only a candid memoir of the education and disillusionment of an intelligence operative but also an unprecedented look

## Read Book The Terrorists Son A Story Of Choice Zak Ebrahim

at the roots of modern terrorism. Baer reveals some of the disturbing details he uncovered in his work, including: \* In 1996, Osama bin Laden established a strategic alliance with Iran to coordinate terrorist attacks against the United States. \* In 1995, the National Security Council intentionally aborted a military coup d'etat against Saddam Hussein, forgoing the last opportunity to get rid of him. \* In 1991, the CIA intentionally shut down its operations in Afghanistan and Saudi Arabia, and ignored fundamentalists operating there. When Baer left the agency in 1997 he received the Career Intelligence Medal, with a citation that says, "He repeatedly put himself in personal danger, working the hardest targets, in service to his country." See No Evil is Baer's frank assessment of an agency that forgot that "service to country" must transcend politics and is a forceful plea for the CIA to return to its original mission—the preservation of our national sovereignty and the American way of life.

"Anyone who wants to understand the world we live in now should read this book." —Lawrence Wright To eliminate the scourge of terrorism, we must first know who the enemy actually is, and what his motivations are. In *Anatomy of Terror*, former FBI special agent and New York Times best-selling author Ali Soufan dissects Osama bin Laden's brand of jihadi terrorism and its major offshoots, revealing how these organizations were formed, how they operate, their strengths, and—crucially—their weaknesses. This riveting account examines the new Islamic radicalism through the stories of its flag-bearers, including a U.S. Air Force colonel who once served Saddam Hussein, a provincial bookworm who declared himself caliph of all Muslims, and bin Laden's own beloved son Hamza, a prime candidate to lead the organization his late father founded. *Anatomy of Terror* lays bare the psychology and inner workings of al-Qaeda, the Islamic State, and their spawn, and shows how the spread of terror can be stopped. Winner of the Airey Neave Memorial Book Prize
