A strategic mind has a number of characteristics: Has a clear understanding of her own and others' (ultimate) desired purpose Has the ability to see action in the context of systems and in time Possess a large repertoire of mental models and ability to use expert intuition to access them and identify the ones fit for purpose

*How Leaders Can Think More Strategically*

Strategic thinking is thinking about process, competency, structure, people, and resources. Advantage requires pulling all aspects together into one coherent business organization. Strategic thinking is about purpose, identity, values, and vision guiding the development and optimization of offerings, processes, and resources.

*strategic thinking - Managing Research Library*

Strategic thinking is characterized by an all-pervasive unwillingness to expend resources. A strategist is always looking for opportunities to win at low or, better yet, no cost. Strategic thinking is usually indirect and unexpected rather than head-on and predictable.

The Power of Strategic Thinking. By Carol Christ // Volume 20, Number 2 // March/April 2012. A Dartmouth University professor puts the tasks that all organizations must perform into three boxes: (1) a box containing those things an institution does to make its core business as excellent as possible, (2) a box of "selective forgetting" for eliminating activities no longer productive or useful, and (3) a box of innovation for selective experimentation with projects that anticipate the future.

*The Power of Strategic Thinking - AGB*

Strategy and planning is about determining what's most important for your organization to do and then figuring out how best to get those things done. This is why strategic thinking and planning can serve as a powerful moment to identify opportunities to strategically align or restructure with another organization.

*Strategy & Planning - BoardSource | The Power of Possibility*

In business, strategic thinking involves a significant commitment of organizational resources, funds, or energy. In both individuals and organizations, and " [i]n the absence of a coherent strategy, nonstrategic factors, such as bureaucratic and organizational imperatives, will fill the void to the detriment" of the organization or individual.

*Power Tool: Strategic Thinking vs. Tactical Thinking*

Military strategy is a set of ideas implemented by military organizations to pursue desired strategic goals. Derived from the Greek word strategos, the term strategy, when it appeared in use during the 18th century, was seen in its narrow sense as the "art of the general", or "'the art of arrangement" of troops. Military strategy deals with the planning and conduct of campaigns, the movement ...
