Based on groundbreaking Barna Group research, unChristian uncovers the negative perceptions young people have of Christianity and explores what can be done to reverse them.

Christianity has an image problem. Christians are supposed to represent Christ to the world. But according to the latest report card, something has gone terribly wrong. Using descriptions like "hypocritical," "insensitive," and "judgmental," young Americans share an impression of Christians that's nothing short of . . . unChristian. Groundbreaking research into the perceptions of people aged 16-29 reveals that Christians have taken several giant steps backward in one of their most important assignments. The surprising details of the study, commissioned by the Fermi Project and conducted by The Barna Group, are presented with uncompromising honesty in unChristian. Find out why these negative perceptions exist, learn how to reverse them in a Christlike manner, and discover practical examples of how Christians can positively contribute to culture. Now available in trade paper.

Many Christians today feel overwhelmed as they try to live faithfully in a culture that seems increasingly hostile to their beliefs. Politics, marriage, sexuality, religious freedom—with an ever-growing list of contentious issues, believers find it harder than ever to hold on to their convictions while treating their friends, neighbors, coworkers, and even family members who disagree with respect and compassion. This isn't just a problem that affects individual Christians; if left unaddressed, the growing gap between the faithful and society's tolerance for public faith will have lasting consequences for the church in America. Now the bestselling authors of unChristian turn their data-driven insights toward the thorny question of how Christians talk with people they know and love about the most toxic issues of our day. They help today's disciples understand what they believe and why, and how to keep believing it without being judgmental and defensive. Readers will discover the most significant trends that offer both obstacles and opportunities to God's people, and how not only to challenge culture but to create and renew it for the common good. Perhaps most importantly, David Kinnaman and Gabe Lyons invite fellow Christians to understand the heart behind opposing views and show them how to be loving, life-giving friends despite profound differences. This will be the go-to book for young adult and older believers who don't want to hide from culture but to engage and restore it.

Close to 60 percent of young people who went to church as teens drop out after high school. Now the bestselling author of unChristian trains his researcher's eye on these young believers. Where Kinnaman's first book unChristian showed the world what outsiders aged 16-29 think of Christianity, *You Lost Me* shows why younger Christians aged 16-29 are leaving the church and rethinking their faith. Based on new research, *You Lost Me* shows pastors, church leaders, and parents how we have failed to equip young people to live "in but not of" the world and how this has serious long-term consequences. More importantly, Kinnaman offers ideas on how to help young people develop and maintain a vibrant faith that they embrace over a lifetime.

Based on groundbreaking Barna Group research, unChristian uncovers the negative perceptions young people have of Christianity and explores what can be done to reverse them.

Many people today, especially among emerging generations, don't resonate with the church and organized Christianity. Some are leaving the church and others were never part of the church in the first place. Sometimes it's because of misperceptions about the church. Yet often they are still spiritually open and fascinated with Jesus. This is a ministry resource book exploring six of the most common objects and misunderstandings emerging generations have about the church and Christianity. The objections come from conversations and interviews the church has had with unchurched twenty and thirty-somethings at coffee houses. Each chapter raises the objection using a conversational approach, provides the biblical answers to that objection, gives examples of how churches are addressing this objection, and concludes with follow-through projection suggestions, discussion questions, and resource listings.

Many teenagers leave home for college but don't take their faith with them. Popular writer and speaker Sean McDowell offers a solution for this problem: a new way of approaching faith that addresses the questions the emerging generation is asking and that incorporates a radically humble and relational approach. An impressive list of contributors including Dan Kimball (They Like Jesus but Not the Church), Brian Godawa (Hollywood Worldviews), and Josh McDowell show that today's apologetics must employ... a clear connection with everyday life an invitation for people to express their doubts and wrestle with tough questions a culturally savvy understanding of the way secular people view Christians an engaging methodology that captures the imagination before engaging the mind a strong emphasis on the resurrection and how it changes everything This resource is imperative for leaders who are ready to engage a new generation with the claims of Christ.

It has been said that Christianity has an image problem among those who were born in the late twentieth century. Statistics expose the church today as hypocritical, judgmental, sheltered, and overly political, to name just a few of the negative perceptions. Tempted to write off such perceptions as the cynicism of secular youth? Young people inside the church feel the same way? How has the body of Christ on earth become so unChristian? Experienced young adult pastor Russell Rathbun responds to the question and the perceptions with a challenging invitation to be transformedfrom unChristian to nuChristianby taking seriously the critique of a new generation.

Churchless people are all around us: among our closest loved ones, at our workplaces, in our neighborhoods. And more and more, they are becoming the norm: The number of churchless adults in the US has grown by nearly one-third in the past decade. Yet the startling truth is that many of these people claim they are looking for a genuine, powerful encounter with God—but they just don't find it in church. What are they (or we) missing? How can we better reach out to them? What can we say or do that would inspire them to want to join a community of faith? Containing groundbreaking new research from the Barna Group, and edited by bestselling authors George Barna (Revolution) and David Kinnaman (You Lost Me), Churchless reveals the results of a five-year study based on interviews with thousands of churchless men and women. Looking past the surface of church attendance to deeper spiritual realities, Churchless will help us understand those who choose not to be part of a church, build trust-based relationships with them, and be empowered to successfully invite them to engage.
