Depreciated value of the building = 4, 80,000 - 2, 89,920 = Rs. 1, 90,080/- Example 10: The tenants of a building have agreed to return a sum of Rs. 37,500/- to the owner of the building which he has spent on repairs. It is agreed that the amount should be returned in 25 regular yearly installments with 8% interest. Work out the yearly ...

How to Calculate the Value of a Building?

Most often, valuation boils down to a small, simple valuation range: four times to six times EBITDA (or 4X to 6X in M&A code). The magic number in the M&A deal-making world is smack-dab in the middle: 5X.

M&A Valuation: What's a Company Worth? - dummies

Building up a customer base. It is notable that this valuation methodology does not account for any goodwill an already established competitor would have built up over a number of years (which an acquiring company would typically pay for). Therefore, a "goodwill premium" should be considered to an entry cost valuation to account for this.
